ORDINANCE NO. _____

AN ORDINANCE GRANTING SPECIAL PERMIT NO. PZST17-00013, TO ALLOW FOR A HELISTOP ON THE PROPERTY DESCRIBED AS LOTS 1 TO 15 & CLOSED ALLEY AND ADJACENT STREET, BLOCK 91, ALEXANDER ADDITION, 1800 OREGON ST., CITY OF EL PASO, EL PASO COUNTY, TEXAS , PURSUANT TO SECTION 20.10.240 OF THE EL PASO CITY CODE. THE PENALTY BEING AS PROVIDED IN CHAPTER 20.24 OF THE EL PASO CITY CODE.

WHEREAS, the HCA Health Systems of Texas, Independent Mortgage Company, and El Paso Electric Company, have applied for a Special Permit under Section 20.10.240 of the El Paso City Code to allow for a Helistop; and,

WHEREAS, a report was made by the City Plan Commission and a public hearing was held regarding such application; and,

WHEREAS, the City Plan Commission has recommended approval of the subject Special Permit; and

WHEREAS, the subject Special Permit has been submitted to the City Council of the City of El Paso for review and approval; and

WHEREAS, the City Council of the City of El Paso finds that the application conforms to all requirements of Section 20.04.320 of the El Paso City Code.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF EL PASO:

1. That the property described as follows, is in a S-D/c/sp (Special Development/conditions/special permit) District: *Lots 1 to 15 & Closed Alley and Adjacent Street, Block 91, Alexander Additon, 1800 Oregon St., City of El Paso, El Paso County, Texas more particularly described in the metes and bounds description attached as Exhibit "A" incorporated herein*; and,

2. That the City Council hereby grants a Special Permit under Section 20.04.320 of the El Paso City Code to allow for HELISTOP on the property described in Paragraph 1 of this Ordinance; and,

3. That this Special Permit is issued subject to the development standards in the S-D (SPECIAL DEVELOPMENT) District regulations and is subject to the approved Detailed Site Development Plan signed by the Applicant, the City Manager, and the Executive Secretary of the City Plan Commission. A copy of this plan is attached hereto as Exhibit "B" and is incorporated herein by reference for all purposes; and

4. That if at any time the Applicant fails to comply with any of the requirements of this Ordinance, Special Permit No. PZST17-00013, shall be subject to termination; construction

MEMORANDUM

DATE: July 16, 2018

TO: The Honorable Mayor and City Council
Tomàs Gonzalez, City Manager

FROM: Anne Guayante, Senior Planner - Planning & Inspections

SUBJECT: PZST18-00013

The City Plan Commission unanimously recommended **approval** (8-0) of the proposed special permit at its January 25, 2018 meeting.

The CPC found that the rezoning is in conformance with Plan El Paso. The CPC also determined that the special permit protects the best interest, health, safety, and welfare of the public in general; that the proposed use is compatible with adjacent land uses; and, that the special permit would have no negative effects on the natural environment, socio-economic conditions, and property values in the vicinity or the city as a whole.

As of January 17, 2019, Planning staff has received sixty-seven letters from fifty-seven people and two neighborhood associations in opposition to the special permit requests.

Property Owner: HCA Health Systems of Texas, Independent Mortgage Company, and El Paso Electric Company

Applicant: Ashley Frysinger, Kimley-Horn

REQUEST:	<p>Rescind Special Permit ZON03-00042 granted by Ordinance 15618 and grant a new special permit for the following:</p> <ul style="list-style-type: none">• Special Use Permit– Helistop in the S-D/c/sp (Special Development / conditions / special permit) District<ul style="list-style-type: none">◦ (For Parcel 1 located at 1800 Oregon St.)• Special Permit for Parking Reduction<ul style="list-style-type: none">◦ (For Parcels 1, 2, 3, and 5, the Las Palmas Hospital Campus)• Special Use Permit – Off-Street Parking Serving another property in the A-3 (Apartment) and S-D (Special Development) Districts<ul style="list-style-type: none">◦ (For Parcels 4, 7,8,9,10, the surface parking lots located on Rim, Oregon, and Crosby Streets)
RELATED APPLICATIONS:	None
PUBLIC INPUT	Sixty-seven letters from fifty-seven people and two neighborhood associations in opposition; Notices sent to property owners within 300 feet on December 20, 2017 (See Attachment #7)
STAFF RECOMMENDATION:	Approval (see pages 2—7 for basis for recommendation)

SUMMARY OF REQUEST: The applicant is seeking to expand the existing hospital and add a helistop to its roof. This will necessitate special permits for a parking reduction and the helistop. The hospital will accommodate most of its parking demand on surface parking lots on separate properties it owns or leases. Because these properties are in the S-D (Special Development) and A-3 (Apartment) zoning districts, they require special use permits for off-street parking serving another property.

SUMMARY OF RECOMMENDATION: The Planning Division recommends **APPROVAL** of the special permit request and acceptance of the detailed site development plan. The proposed development is consistent with its established neighborhood of surrounding medical and university development. The proposed development is compliant with the G-2, Traditional Neighborhood (Walkable) land use designation of Plan El Paso, the City's Comprehensive Plan, in the Central Planning Area.

DESCRIPTION OF REQUEST

The applicant has submitted a Special Use Permit application for:

- A special use permit for a Helistop for the property at 1800 Oregon St.
- A parking reduction for the hospital campus buildings located at 1801 Oregon Street, 1800 Oregon Street, 101 Rim Street, and 1700 Oregon street, necessitated by a proposed expansion
- A special use permit for off-street parking on a separate lot for multiple surface parking lots along Rim Road, Oregon Street, and Crosby Street that serve the hospital.

HELISTOP

The helistop would serve the expanded hospital, which is proposing to add three stories to the existing building at 1800 Oregon Street. The helistop would be on top of the proposed addition. The current use of the property is a hospital. The proposed detailed site plan shows an expansion of three stories and 96,402 square feet to the existing hospital building, for a total of 536,700 square feet upon completion. An existing special permit was granted in 2013 via Ordinance 018016 for a helistop at this location, then proposed for the roof of the existing two story building, but it was never constructed. The new proposal shows the proposed helistop in a different location and requires a new special permit.

PARKING REDUCTION

Upon completion, the 536,700 square foot hospital campus requires 932 parking spaces. On February 13, 2017, the Zoning Board of Adjustments reduced the required number of spaces by 6.6% of the total number of required spaces to construct the vertical shell of their building, but not its upper two floors. This granted them a reduction of 60 spaces, and brings the new total requirement to 872 spaces. In order to proceed with construction of the upper two floors, a Special Permit must be approved by the El Paso City Council. The existing and proposed parking garages contained within the Las Palmas medical center campus contain 342 parking spaces.

The remaining 530 required parking spaces not able to be located on the Las Palmas medical center campus will be addressed through the related special permit for parking spaces serving another property. The hospital owns and leases multiple lots, currently totaling 471 spaces, and totaling 451 parking spaces upon completion of the mechanical facilities building at the southeast corner of Rim and Mesa. Between the structured parking and surface parking lots, there are currently 813 parking spaces, and upon completion there will be 793 designated spaces serving the property. Based on the 872 required parking spaces and the 793 proposed parking spaces, this development necessitates a 9% parking reduction (79 spaces) to construct the upper two floors of the vertical expansion.

The hospital owns a property approximately 1.1 miles from the hospital campus, located at 3333 Mesa Street that contains a surplus of 247 parking spaces. The applicant proposes to use these parking spaces for hospital employees, who will then be ferried to the hospital campus by a shuttle owned and operated by Las Palmas. All told, the hospital is proposing to provide 928 spaces for its expanded facility, which exceeds the minimum parking space requirement by 56 spaces. Additionally, the applicant conducted a parking study, which reflects there are 43 on-street parking spaces located within 300 feet of the subject property. Therefore, granting the parking reduction request is not anticipated to negatively impact its surrounding neighborhood.

Ordinance no. 15618 approved in 2003 granted a special permit for parking reduction addressing the previous configuration of off-street parking lots. Part of this new request is to rescind the existing special permit ordinance so the expansion and new parking requirements can be comprehensively addressed under one ordinance.

OFF STREET SURFACE PARKING LOTS SERVING ANOTHER PROPERTY

Ordinance 15618 allowed the current surface parking lots located along Rim to serve as parking for the hospital campus, which provide 471 parking spaces to the hospital. However, that special permit contained a condition prohibiting new construction any of the parcels that provided parking for the hospital. As part of the proposed expansion, a new central energy plant is being constructed at 120 Rim. This small, unmanned building will occupy parking spaces that previous served the hospital, bringing it out of compliance with that condition of the original special permit. All of the surface parking lots that will serve the hospital are zoned S-D (Special Development) or A-

3 (Apartment). In both of those zoning districts, a special use permit is required for off-street parking serving another property.

COMPLIANCE WITH APPLICABLE CODE PROVISIONS

The existing hospital campus is built to the property line on all of its buildings, three of which are zoned S-D (Special Development) and one of which is zoned A-3 (Apartment), all with conditions and/or special permits related to the hospital. The existing configuration is shown in the site plans for multiple approved special permits for 1998, 2003, and 2013.

Granting the requested special use permits for the helistop and surface parking lots, and the parking reduction special permit would allow for the subject property to meet all applicable zoning code provisions.

SPECIAL PERMIT REQUIREMENTS

HELISTOP

To grant the special permit to allow for a helistop, the applicant must comply with the following standards, per 20.10.240:

- A screening wall complying with Chapter 20.16 shall be provided along the property lines abutting an existing residential use or an existing R, A, PR, SRR, PMD, or NOS zoning district.

The subject property upon which the tower and helistop are proposed (1800 Oregon St.) is adjacent to an apartment-zoned property at 1700 Oregon Street that is also part of the hospital campus. However, because they are separated from each other by the Oregon Street right-of-way, they are exempt from the screening wall requirement, per El Paso City Code Section 20.16.020 (H)(4).

- A minimum perimeter setback of 150 feet shall be provided along the property lines abutting existing residential use or an existing R, A, PR, SRR, PMD or NOS zoning district and adjacent to any right-of-way or easement which separates the property from a residential use or an R, A, PR, SRR, PMD, or NOS zoning district, to minimize potential negative impacts created by activity within the site. **(Note that where a right of way or easement separates the property line from a residential use or residential zoning district, the width of such right of way or easement shall be included in meeting the perimeter setback requirement, provided, however that the setback from the property shall never be less than that required in the district).**

The distance between the helistop and the abutting A-3 property at 1801 Oregon, which is also part of the Las Palmas hospital campus is more than 150 feet.

PARKING REDUCTION

To grant the special permit to allow for a parking reduction, the applicant must comply with the following standards, per 20.14.070:

EXISTING DEVELOPMENT: Per the standards of 20.14.070 (A), up to a one hundred percent reduction for a use involving an existing structure(s) located within an older neighborhood of the city that is proposed through the rehabilitation, alteration or expansion of the existing structure(s). The applicant shall satisfactorily demonstrate compliance with all of the following conditions:

1. That the structure(s) is located in an older neighborhood of the city that has been legally subdivided and developed for at least thirty years;

The subject property is located within the Alexander Addition to the City of El Paso, which was platted in 1903

2. That the structure(s) does not extend into an area within the property which was previously used to accommodate off-street parking;

The subject property is built to all of its lot lines, with all on-site parking accommodated in structures. None of the proposed expansion to the tower on the hospital campus displaces existing parking.

3. That the off-street parking required for the proposed use of the structure(s) cannot be reasonably accommodated on the property due to the building coverage, whether due to the existing structure or due to a proposed expansion of the existing structure; and

The subject property is built to all of its lot lines, with all on-site parking accommodated in structures.

4. That no vacant areas exist within three hundred feet of the property where the proposed use is to be located that can be reasonably developed to accommodate the off-street parking requirements.

The applicant owns or leases six surface parking lots which will be used to accommodate the special permit request. Portions of four of them are within 300 feet, but the spaces contained within that distance do not contain enough parking spaces to satisfy the parking demand generated by the hospital.

OFF-STREET PARKING SERVING ANOTHER PROPERTY

To grant the special permit to allow for off-street parking serving another property, the applicant must comply with the following standards, per 20.10.410:

1. The parking area is compatible with the general development of the neighborhood and does not adversely affect the use of adjacent properties;

The surface parking lots have been part of the established neighborhood for at least ten years, with approximately half of them present since at least 1997. The surface parking lots on Rim between El Paso and Randolph the lot at 120 Rim, and the lot at Crosby and Oregon are visible in 1997 aerial photos. The remaining surface parking lots were created between 2002 and 2006.

2. The parking area is so arranged as to permit sufficient space for parking spaces and turning maneuvers, as well as adequate ingress and egress to the site;

Stall depth and width meets the dimensional requirements for parking spaces. Aisles and driveway meet minimum widths per the El Paso City Code.

3. Lighting shall comply with Chapter 18.18 (Dark Sky Ordinance) of this Code;

Notes on the detailed site development plans indicate that these lots will comply with this regulation.

4. The parking area is located in such a manner from the site generating the parking requirement to assure that such parking facility will adequately serve the use;

All of the lots are within a quarter mile pedestrian shed of the subject property.

5. Access to be provided to the parking area shall not be through private property that is not zoned to permit the use generating the off-street parking;

All access to all surface parking lots will be via public streets.

6. Adequate provisions shall be made to assure that the parking area is reasonably identifiable as to the patronage it serves, the location, points of access, hours of operation and other appropriate matters made as a condition of the special permit approval;

All of the parking lots have signs at each entrance indicating that the lots are for use by the hospital only. Photos of each sign are included within the detailed site development plan.

7. The parking spaces required to be provided for the use shall be restricted to that use;

Each of the signs contains a statement to this effect.

8. Any off-street parking spaces to be provided on the site generating the off-street parking requirement shall be used to accommodate required handicapped accessible spaces and patron parking;

The location of ADA stalls is shown on the sections of the site plan that address the layout of the parking garages at the subject property.

9. The parking area shall be owned or leased by the same property owner who operates the use generating the off-street parking requirement, and any leasehold interest in the parking area shall be validly held for the duration of the use.

Deeds and leases have been provided for all surface parking parcels. HCA Health Systems of Texas owns the surface parking lot at 1701 Oregon (Lot 4 in the attached Detailed Site Development Plan). It leases the surface parking lot located at the southeast corner of Oregon and Crosby from Independent Mortgage Company (Lot 5 in the attached Detailed Site Development Plan). It leases the surface parking lots on Rim and El Paso Streets (Lots 1, 2, and 3 in the attached detailed site development plan) from El Paso Electric Company.

RELATION OF PROPOSED CHANGE TO THE CITY'S COMPREHENSIVE PLAN

CONSISTENCY WITH PLAN EL PASO	DOES IT COMPLY?
<p><u>G-2 Traditional Neighborhood (Walkable)</u> G-2 neighborhoods already have walkable thoroughfare grids, a mix of uses and housing types, historic buildings, parks, and a strong sense of character. The City's priorities are improving public infrastructure, restoring any abandoned buildings, and infilling empty lots and parking lots with street-oriented buildings.</p>	<p>The hospital campus that will house the helistop is located on multiple adjacent blocks of a street grid, with the zero-lot-line buildings connected over the abutting streets via aerial walkways.</p>
ZONING DISTRICT	DOES IT COMPLY?
<p><u>S-D Special Development District</u> The purpose of this district is to provide an opportunity for mixed-use projects, integrated in design, in certain older residential areas where there is a desire to permit a variety of nonresidential uses while maintaining the established residential appearance and landscaping of the area. The regulations of this district are designed to ensure compatibility with existing uses in the district; to permit the production, exhibit or sale of goods and the providing of services to the public in such older residential areas; to protect the traffic capacity of streets serving such older residential areas; to encourage flexibility by prescribing general performance standards for such older residential areas; and to protect the environment of adjacent areas. For the purpose of this district, older areas of the city shall be deemed those areas where development has existed for at least twenty-five years.</p>	<p>A helistop is permitted in the Special Development District if a special use permit is approved by the El Paso City Council.</p>
POLICY	DOES IT COMPLY?
<p><u>Policy 5.15.2</u> Continue support and participation with other agencies in the provision of emergency preparedness.</p> <p><u>Public Facilities Chapter Introduction, p. 5.2</u> Citizens of El Paso also enjoy public facilities and services that are not managed by the City of El Paso; however, they are critical to the success of the community and play a vital role in our lives. These services include public and private schools, utilities, and hospitals. Even though different organizations manage various elements of public facilities and services, they affect one another in their ability to serve the needs of the entire community. Quality of life is affected by the location, quantity, design, and service excellence provided with each facility and the service rendered. Managing growth in the City through the assurance of adequate and timely public facilities to serve the current and future population is an on-going challenge.</p>	<p>As articulated in the introduction to the Public Facilities chapter of Plan El Paso, hospitals are a critical part of the fabric of El Paso's network of public facilities. Allowing for the provision of a helistop at one of El Paso's existing hospitals will directly further the goal of Policy 5.15.2 by allowing critically ill and injured patients to receive life-saving care more rapidly.</p>

SUITABILITY OF SITE FOR USES UNDER CURRENT ZONING: A hospital is permitted upon acceptance of a detailed site development plan in the S-D (Special Development) District and by Special Permit in the A-3 (Apartment District). A helistop is permitted by Special Permit in the S-D (Special Development) District. Off-street surface parking serving another property is permitted by Special Permit in the A-3 (Apartment) and S-D (Special Development) Districts.

CONSISTENCY WITH INTENT AND PURPOSE OF THE ZONING ORDINANCE: The intent of the Zoning Ordinance is to protect the public health, safety, and general welfare; to regulate the use of land and buildings within zoning districts to ensure compatibility, and to protect property values. The intent of the S-D (Special

Development) District is to district is to provide an opportunity for mixed-use projects, integrated in design, in certain older residential areas where there is a desire to permit a variety of nonresidential uses while maintaining the established residential appearance and landscaping of the area. The intent of the A-3 (Apartment) District is to promote and preserve residential development within the city associated with a landscape more urban in appearance and permitting a mixture of housing types. It is intended that the district regulations allow for medium densities of dwelling units supported by higher intensity land uses located at the periphery of single-family neighborhoods providing that the overall character and architectural integrity of the neighborhood is preserved. The proposed special permits would allow the existing hospital facility to complete an expansion that would provide additional critical care services to the neighborhood and community while maintaining the established character of the existing neighborhood, and allowing the hospital to continue to use the existing configuration of surface parking lots to help meet its demand. The inclusion of the shuttle service to the proposed employee lot at 3333 Mesa Street will help to ensure that the granting of the special permit request for the parking reduction will not negatively impact the neighborhood surrounding the subject property. The subject property allows for all applicable requirements upon approval of the special permit.

ADEQUACY OF PUBLIC FACILITIES AND SERVICES: Existing infrastructure is capable of serving the proposed expansion, helistop, and existing surface parking lots.

EFFECT UPON THE NATURAL ENVIRONMENT: The subject property is not in an environmentally sensitive area and no negative impact is anticipated.

COMMENT FROM THE PUBLIC: The subject property falls within the boundary of the El Paso Central Business Association. They were contacted as required by 20.04.520. Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on December 20, 2017. The Planning Division has received sixty-seven letters from fifty-seven people and two neighborhood associations in opposition to the proposed special permit.

STAFF COMMENTS: No objections to proposed special permit and detailed site development plan approval. All department comments have been satisfactorily addressed. Applicant is responsible for obtaining all applicable permits and approvals prior to any construction or change in occupancy.

OTHER APPLICABLE FACTORS: Approval of the site plans by CPC constitutes a determination that the applicant is in compliance with the minimum provisions. Applicant is responsible for the adequacy of such plans, insuring that stormwater is in compliance with ordinances, codes, DSC, and DDM. Failure to comply may require the applicant to seek re-approval of the site plans from CPC.

Planning and Inspections Department - Planning Division

1. *Hard copies of all sheets of all detailed site development plans require a stamp or seal by a professional engineer or registered architect.*
2. *Please show distance between helistop and property lines to ensure that the required distance of 150' from residential or apartment zones and uses is met.*
3. *Please re-label the helipad as a helistop. El Paso City Code differentiates between helistops and heliports, and only helistops are allowed by special permit in the hospital tower's zoning district (S-D District).*
4. *Please show distance between CEP and property lines to verify conformance with the S-D and A-3 Zoning District setbacks.*
5. *Verify that the two lots comprising the CEP parcel have been properly combined and recorded with the County.*
6. *Show required landscaping for CEP on site plan.*
7. *On the surface parking lot DSDP sheets, add a note that all lighting shall comply with Chapter 18.18 (Dark Sky Ordinance) of the El Paso City Code.*
 - a. *Addressed in revisions.*
8. *Parcel 3 (Lots 1-8, Block 79 Alexander Addition) shown on DSDP not referenced in application form. Please revise to include it.*
9. *The following properties are missing required documentation in the application packet:*
 - a. *1800 Oregon – missing metes and bounds*
 - b. *1801 Oregon – missing metes and bound and deed*
 - c. *1700 Oregon – missing metes and bounds and deed*
 - d. *1701 Oregon – missing deed*
 - e. *Lot 3 on Sheet 3 of the DSDP – missing deed*
 - f. *Copies of deeds can be found at El Paso County Records here: <http://www.epcounty.com/publicrecords/officialpublicrecords/OfficialPublicRecordSearch.aspx>*
10. *Separate comments will be sent (if any) for the parking study once it has been submitted and reviewed.*

Texas Department of Transportation

Please have requestor submit plans to TxDOT for review and approval as part of the development is abutting Mesa St

Planning and Inspections Department – Plan Review & Landscaping Division

1. *Based on staff report provided the application also includes the new facility plant as part of the special permit request. Please provide required landscape calculations*

Planning and Inspections Department – Land Development

1. *Show existing drainage flow patterns on the detailed site plans. Clarify if harvesting rainwater into landscaped areas.*
2. *Provide a note with the current FEMA FIRM flood zone information.*
3. *Approval of the site plans by CPC constitutes a determination that the applicant is in compliance with the minimum provisions. Applicant is responsible for the adequacy of*

such plans, insuring that storm-water is in compliance with ordinances, codes, DSC, and DDM. Failure to comply may require the applicant to seek re-approval of the site plans from CPC.

Fire Department

Recommend approval.

Police Department

PD has no issues with this application.

Sun Metro

Sun Metro does not oppose this request.

Sun Metro's Mesa Brio, and Routes 10, 11, 14, and 15 provide service along the Oregon Street corridor. A bus stop is located abutting the property located at 1801 Oregon with a Brio station abutting the property located at 1800 Oregon.

El Paso Streetcar has an embedded track alignment along Oregon, with a streetcar stop abutting the surface parking lot south of 1801 Oregon. Overhead Contact System (OCS) poles and OCS wiring infrastructure are located abutting several parcels referenced on this request. There is a 10 feet Dynamic Safety Envelope clearance requirement from the centerline of the track alignment laterally and 10 vertically above the OCS wire, refer to the attached Dynamic Safety Envelope graphic. Coordination with Sun Metro Streetcar is required prior to the CPC hearing date, and throughout all phases of construction. Coordination with Sun Metro Planning is also required for the temporary relocation of Brio and fixed route bus stops.

El Paso Water Utilities

EPWU-PSB Comments

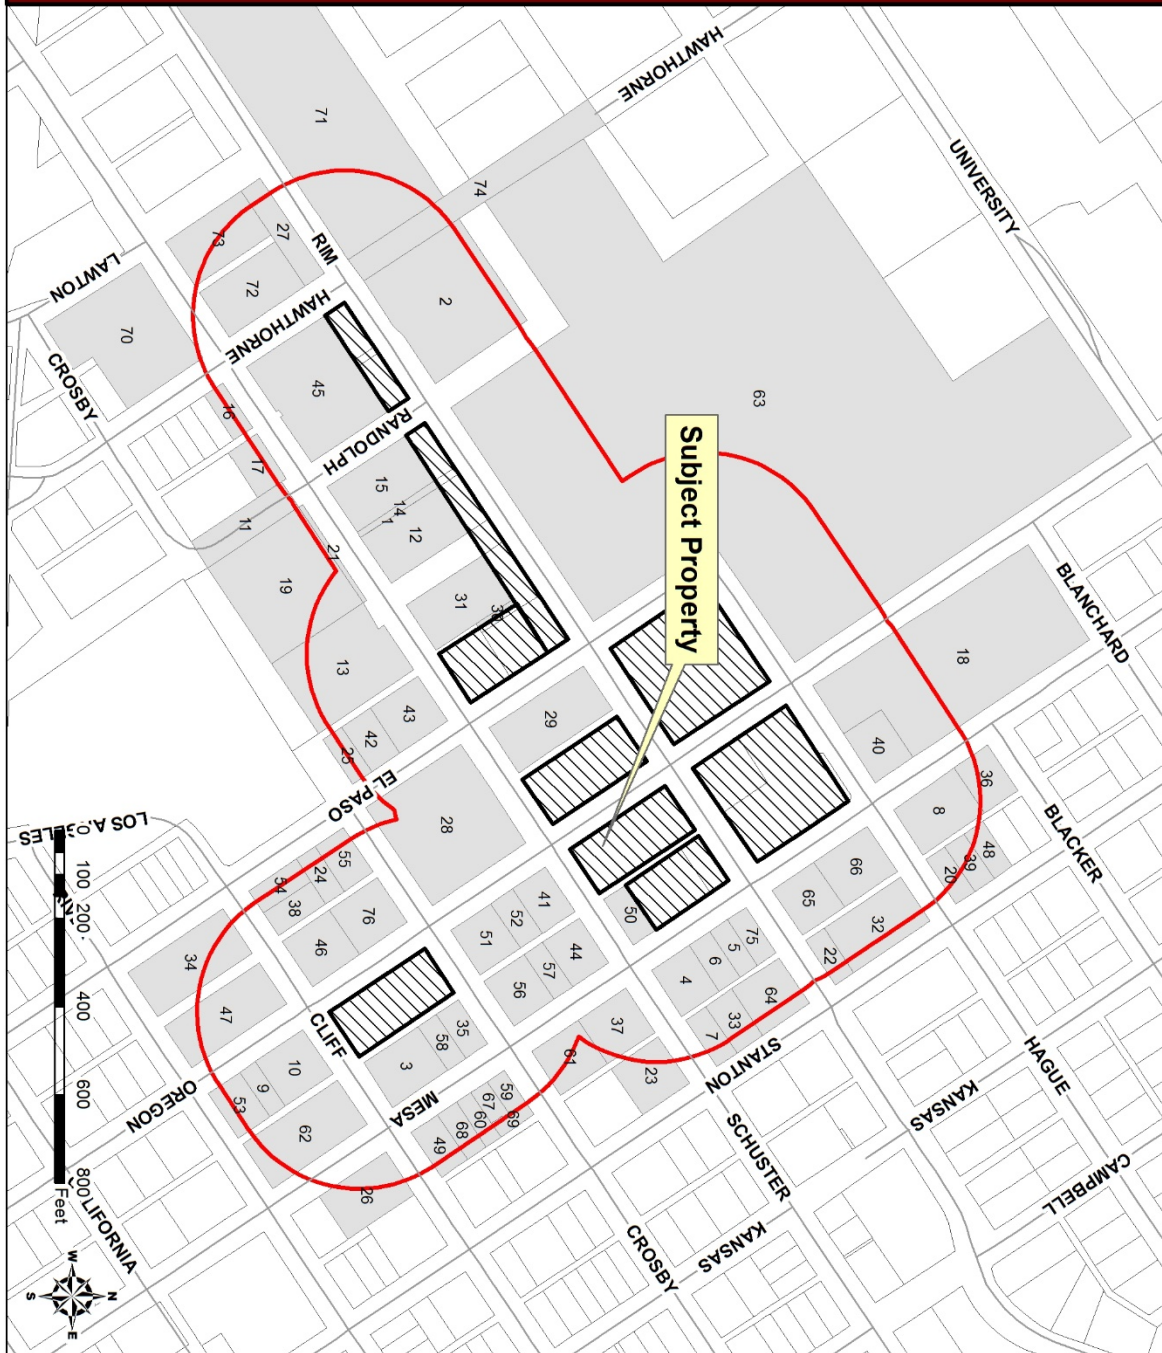

No comments received. Comments will be forwarded at a later date if any are received after this document is sent.

Stormwater:

EPW-Stormwater Engineering reviewed the property described above and has no objections to the request. However, we recommend using principles of low impact & green infrastructure development (such as recessed landscaping, rainwater harvesting, and porous pavements) to reduce the amount of developed stormwater runoff.

Subject: Las Palmas Hospital Notice of Special Permit Applications

Hello!

I am emailing you as required by Section 2.102.090 of the City of El Paso Code of Ordinances. El Paso Healthcare Unlimited DBA Las Palmas Del Sol Healthcare (Las Palmas Hospital) is applying for a special permit for parking space reduction, helipad, and shared parking. The total reduction to parking is 11.6% of the required parking spaces. There is also a shared parking special permit that is being voided with the development that we are replacing with a new shared parking special permit. No new parking spaces are being proposed for the site.

1801 Oregon Street is the address for all improvements/permits. If you have any questions please feel free to contact myself or Ashley Frysinger. The contact information is below.

Thank you,

Katye Miller, EIT

Opposition Letters on Following Pages

August 8, 2018

Ms. Anne Guayante
Senior Zoning Planner, Planning & Inspections Department
City of El Paso
801 Texas Ave.
El Paso, TX 79912

Re: Las Palmas Hospital Special Permit PZST17-00013; City Council Public Hearing Scheduled for August 21, 2018

Dear Ms. Guayante:

The Board of Directors of the Rim Area Neighborhood Association (RANA) has unanimously voted to oppose the above-referenced Special Permit requests of Las Palmas Hospital which are currently scheduled for public hearing and vote by City Council on August 21, 2018. RANA requests that this item be postponed until the CEO of Las Palmas and their appropriate staff can meet with officers of RANA to discuss several issues.

As the Department of Planning & Inspections is aware, parking on RANA's residential streets by students, hospital employees and Las Palmas construction workers is a critical issue already adversely impacting RANA residents. If granted, the above Special Permit would greatly exacerbate the problem.

Over the last eight months RANA has met numerous times with the District 1 representative, City staff and third parties to express concerns about the increasing negative pressure of parking within the neighborhood generated by outside sources. In addition to residents and their guests not being able to park near their homes, the more narrow residential streets and intersections were not designed to safely function as commercial parking lots or handle the automobile turnover they are experiencing.

It is very disturbing to the RANA Board that within this context the City staff is recommending a parking waiver of 119 off-street parking spaces in this already congested area. Further, to suggest that numerous Las Palmas employees will daily wait for a shuttle to take them to and from a site over a mile from the hospital (The Life Care Center) as opposed to parking in our neighborhood and walking a few hundred feet with no wait, ignores reality. The neighborhood has already witnessed how the shuttle availability for UTEP students to park and ride from off-site parking lots has failed to diminish student parking in closer neighborhood streets.

RANA also opposes the heliport without more protective measures for the neighborhood, and opposes deleting a prior Special Permit restriction agreed to by Las Palmas in the past. This restriction prohibited building any structures on any parcels providing parking for the hospital. Now Las Palmas

October 11, 2018

Ms. Risher Gilbert
Ms. Suzanne Dipp
Ms. Mika Cohen-Jones
Mr. John Moye
Board of Directors
Rim Area Neighborhood Association
El Paso, Texas 79901

Re: Las Palmas Special Permits for off-site parking and a helispot

Dear Risher, Suzanne, Mika and John:

Las Palmas is now in a position to present its final plan to the Rim Area Neighborhood Association ("RANA"), and the other interested neighborhood groups, to deal with the concerns expressed in your letters and at the last meeting on October 1, 2018. Each aspect of the plan is addressed by topic as shown below.

1. RANA's parking issues: Las Palmas accepts your contention that the neighborhood streets within the boundaries of RANA are often used by persons who do not reside in the neighborhood to park personal and commercial cars and trucks and that the number of parked cars and trucks has had a negative impact on the neighborhood. In your letter of August 8, 2018, you identified these persons as "students, hospital workers and Las Palmas construction workers." In our meetings, you appear to have adopted the position that most of the nonresident owned vehicles being parked on your neighborhood streets belong to employees of Las Palmas or to employees of subcontractors working on the new Women's Center that is under construction. Based on a parking survey that has been recently completed, Las Palmas has concluded that its employees rarely, if ever, park in the RANA neighborhood for reasons described below. Las Palmas acknowledges that there have been instances where some undetermined number of employees of subcontractors working on the Women's Center have parked the RANA neighborhood but that practice has been effectively stopped. Each of these parking issues deserves separate attention

a. Parking by employees of Las Palmas: It is clear from your letter of August 8, 2018 and your comments in our meetings that you have concluded that some unknown but significant number of Las Palmas employees regularly park in the RANA neighborhood and that this situation has materially interfered with your enjoyment of your homes. You have criticized Las Palmas' plan to use off-site parking at the Life Care

Ms. Risher Gilbert

Ms. Mika Cohen-Jones
Mr. John Moye
October 11, 2018
Page 2

Center to satisfy its code mandated parking requirements as being unworkable and unlikely to change the existing parking problem in your neighborhood. This understanding appears to be at the heart of your opposition to Las Palmas' application for a special permit for off-site parking at the Life Care Center.

When I started working on this case, I initially thought that employee parking spaces on the Las Palmas campus must be in short supply and that this problem was forcing employees to park in the RANA neighborhood even though it would be inconvenient to do so. However, further study has revealed a very different situation. Several weeks ago, during our internal discussions, Don Karl and Ruben Castro started to question why Las Palmas employees would want to park in the RANA neighborhood when there seemed to be many vacant (and closer) parking spaces available each day on the Las Palmas campus. Since this observation was essentially anecdotal, the parking situation at Las Palmas was reviewed.

Las Palmas has 7 existing parking lots on its campus that are available to employees. They are identified on Exhibit A as Lot 1 (53 spaces); Lot 2 (124 spaces); Lot 3 (55 spaces); Lot 5 (92 spaces); Lot 6 (43 spaces); the basement of Building A (50 spaces) and Building B (77 spaces). The Lots and Buildings are shown on Exhibit B. The vacant lot identified on Exhibit C will be improved as a parking lot as soon as possible and will have approximately 50 spaces (see paragraph 4 below). Not including the vacant lot, there are 494 spaces now available to employees who work at Las Palmas. When the new parking lot is constructed the total will rise to 554. I have been advised that there are approximately 300 employees working on the campus at the peak hours of each day. It is reasonable to conclude that because employees Las Palmas have more than enough parking spaces on the Las Palmas campus, they have no need or incentive to park in the RANA neighborhood.

The existence of vacant spaces is supported by a parking survey that was performed by Ruben Castro. On October 1, 2018 through October 5, 2018, lots with vacant spaces were inspected. These lots were Lot 5, Lot 3 and Lot 1. The results are posted on Exhibit D. There were never less than 65 vacant parking spaces on these lots when the highest number of employees were working. Essentially, this survey has confirmed Don Karl's and Ruben Castro's doubts that Las Palmas employees have been using the RANA neighborhood for parking when they are working at Las Palmas. This survey strongly supports the underlying premise which is that Las Palmas employees would have no reason to park in an inconvenient area like the RANA neighborhood when they could park conveniently on the Las Palmas Campus. Also attached as Exhibit E are photographs of the parking lots known as Crosby (Lot 5), El Paso (Lot 3) and Lower Rim (Lot 1) showing the vacant parking spaces. These photos show the existence of vacant parking spaces on specific dates.

Ms. Risher Gilbert
Ms. Suzanne Dipp
Ms. Mika Cohen-Jones
Mr. John Moye
October 11, 2018
Page 3

The existence of excess spaces on the Las Palmas campus will continue for some time. Las Palmas has no plans at this time to hire additional employees to staff the new Women's Center. Additional employees will be hired on an as needed basis.

Finally, the employee parking areas do include visitor parking. Visitors park on Lot 4 (93 spaces) and Building A (255 spaces). Please refer to Exhibits A and B.

You have been operating on the assumption that the existing number of parking spaces on the Las Palmas campus is not sufficient for the existing number of employees to park their cars and that the assumed parking problem has caused Las Palmas employees to park in your neighborhood. However, the survey undercuts this assumption and demonstrates that Las Palmas employees have no problems finding spaces to park on the campus. The path of least resistance for a Las Palmas employee is to park on the campus and not to park across Mesa Street in the RANA neighborhood. The nonresident owned cars being parked in the RANA neighborhood probably belong to employees of other entities in the area such as Providence Hospital, medical office practices in the area, businesses in the Kern Entertainment District, and to students attending UTEP. RANA should focus its attention on these individuals and the entities that employ them in order to keep the neighborhood streets free from nonresident owned cars.

As a precaution, Las Palmas employees will be issued decals for their vehicles. All employees will be notified that they are not allowed to park their vehicles in the RANA neighborhood during working hours. Las Palmas will periodically check the streets in RANA to see if any vehicles with Las Palmas decals are parked there and, if any such vehicles are found, will take appropriate action against the employees in question. In the event that you notice a vehicle parked in your neighborhood with a Las Palmas decal, you may call the following hotline and report the make, model and location of the vehicle so that appropriate action can be taken: (915) 521-1792. Las Palmas expects that its employees will comply with its directive regarding parking.

To be sure, Las Palmas needs to the off-site spaces at the Life Care Center to comply with the El Paso City Code requirements but it does not follow that the off-site spaces are needed for the number of cars that are actually parked on the campus each day. On an as needed basis, employees of Las Palmas will be shuttled to and from the Life Care Center by Las Palmas on a 24/7 basis.

b. Parking by subcontractors working on the Women's Center: Las Palmas' contractor, Brasfield & Gorrie, LLC (Brasfield), has notified its employees and its subcontractors that that they cannot park their vehicles in the RANA neighborhood. Brasfield has informed Las Palmas that if its project manager learns that a contractor employee or subcontractor employee has parked a vehicle in your neighborhood, the employee will be told to move the vehicle. If that does not occur promptly, Brasfield will

Ms. Risher Gilbert
Ms. Suzanne Dipp
Ms. Mika Cohen-Jones
Mr. John Moye
October 11, 2018
Page 4

have the vehicle towed. Contractor employees and subcontractor employees are being required to park on the vacant lot that will be paved in the future and the parking spaces at the Life Care Center. Las Palmas believes that this problem has now been communicated to Brasfield and that they will follow through as stated. Mr. Matt Morren, Brasfield's project manager, has also agreed to accept calls at the following number if you believe that a vehicle in your neighborhood is owned by a contractor employee or subcontractor employee working at Las Palmas: (615) 479-2539. Mr. Morren has advised Mr. Castro that one call came in reporting that contractor or subcontractor employees had parked in the RANA neighborhood and that the subcontractor employee was required to move his truck. In any event, construction on the Las Palmas site will be substantially completed by the end of the year. This will effectively end any contractor employee parking issues.

2. Additional parking spaces for employees of Las Palmas: As noted above, there are currently sufficient parking spaces on property owned or leased by Las Palmas to accommodate its employees. A new parking lot will be created in the near future, which add approximately 50 new spaces (see paragraph 4 below). If additional parking is actually needed in the future to park employee vehicles, off-site spaces will be available at the Life Care Center, which is leased by Las Palmas. Only 112 additional parking spaces would be required now to comply with the El Paso City Code. Las Palmas has the right to use 135 spaces for off-site parking.

3. Lease of the property at 3333 N. Mesa, El Paso Texas (Life Care Center): The 112 new parking spaces will be provided by using excess off-site parking spaces at the Life Care Center, 3333 N. Mesa St., El Paso, Texas, which is leased to Las Palmas by Hunt Mesa 3333, LLC. After our last meeting, I learned that Hunt has a ground lease on the former Rudolph Chevrolet site, which includes an option to ground lease the property on which the Life Care Center is located. Hunt exercised its option and is now Las Palmas' landlord. The existing lease will expire on August 31, 2019. The new lease will commence on September 1, 2019 for a primary term of 10 years. Las Palmas will have the right to renew and extend the lease for 2 periods of 5 years each. The term sheet does not provide for early termination upon 365 days of prior notice as does the current lease. Hunt Mesa and Las Palmas have signed a Term Sheet containing the new lease terms. I have attached a copy of the Term Sheet as Exhibit E, which shows the term and redacted provisions that are confidential between the parties.

4. Parking Garage: Las Palmas has no plans to construct a parking garage on its property. Las Palmas can provide the number of parking spaces required by the El Paso City Code from both on and off-site lots. However, Las Palmas has decided to invest approximately \$350,000.000 to pave and stripe a vacant lot it owns on Schuster Avenue in order to provide additional parking close to the Las Palmas facilities. This vacant lot is identified on Exhibit C. Once paved and striped, this vacant Lot will provide approximately 50 new spaces. These additional spaces will reduce the number of spaces required at the Life Care Center from 112 to 62. Las Palmas will apply for a special permit to use the vacant lot for offsite parking and ask

Ms. Risher Gilbert
Ms. Suzanne Dipp
Ms. Mika Cohen-Jones
Mr. John Moye
October 11, 2018
Page 5

the City to expedite this application so that the new parking spaces will be available as soon as possible. Las Palmas will comply with the City's requirements regarding landscaping this parking lot.

5. Helistop: A helistop is being constructed on the roof of the new 5-story women's center. The City issued a special permit to Las Palmas in 2013 to construct a ground-based helistop but it was never constructed. A new special permit is required now because the helistop is being constructed in the new location. The FAA has accepted the plans for the construction of the helistop. I have attached to this letter as Exhibit G a Summary Notice of Proposed Construction or Alteration issued by the FAA to Las Palmas showing that the project was accepted. Once the helistop has been completed, the FAA will inspect and issue a permit for operation. You have raised questions about the flight path of helicopters that will use the helistop. My response on the flight path issue is based on consultations with Jeffrey J. Sterwerf, Project Manager for FEC Heliports, who is in charge of the design and FAA permitting of the helistop, and Ashley Frysinger and Jeffrey Dolian, Project Managers at Kimley-Horn, who are responsible for the Special Permit being processed through the City of El Paso. Attached is a Form 7480-1 which was submitted to the FAA by Mr. Sterwerf on August 15, 2018. This form is marked as Exhibit H. Paragraph E 2. has a column entitled Ingress/Egress (Degrees) showing the numbers 315 and 100. These numbers indicate approach and departure paths expressed in degrees. The approach path is from the northwest (315 degrees) and the departure path is to the southeast (100 degrees). The approach and departure paths are also shown on the attachment I have marked as Exhibit I. Mr. Sterwerf has advised me that the approach-departure paths are based on the prevailing winds in the Las Palmas are for guidance only. Flight crews will determine the best direction to fly on any given day based on the current weather conditions. The flight crews also follow the "Fly Friendly" rules avoiding neighborhoods as much as possible. Please note that, unless weather conditions dictate otherwise, approaches used by helicopters to the helistop will be from the northwest, which will completely avoid flying over the RANA neighborhood. Unless weather conditions dictate otherwise, departures from the helistop will be to the southeast, which will avoid flying over the RANA neighborhood except for the southernmost lots on Schuster Street.

Regarding your concern about a potential noise issue when helicopters land and take off, I have been advised that helistops on buildings of 5 stories are significantly less noisy than ground-based helistops. Las Palmas is constructing the helistop to comply with FAA requirements. Mr. Sterwerf has advised me that there are no additional improvements that can be made to the landing area to reduce the normal sound of a helicopter landing and taking off. Las Palmas also believes that having a helistop on the roof of the women's center is a very beneficial asset to El Paso. This type of facility reduces the time a person in need of emergency medical care will receive necessary care and can mean the difference between life and death. Las Palmas believes that the benefits of having a helistop far outweigh any inconvenience caused by the normal sound of a helicopter landing or taking off. Finally, landings and departures from the helistop will be periodic and of short duration which will further mitigate any noise issue. Based on the number of patients that have been air evacuated to Las Palmas (helicopters land at El Paso

Ms. Risher Gilbert
Ms. Suzanne Dipp
Ms. Mika Cohen-Jones
Mr. John Moye
October 11, 2018
Page 6

International Airport and the patient is then transported to Las Palmas by ambulance), Las Palmas does not anticipate that its helispot will be used more than 5 to 8 times per year.

Suzanne Dipp presented me with an article published in 2013 in *The Air & Space Lawyer* that discussed the FAA's North Shore Helicopter Route Final Rule. The Final Rule in question limited passenger helicopter flights operating along the north shore of Long Island to use a certain route approximately 1 mile offshore to mitigate noise from flight operations. This rule was generated by complaints by residents of Long Island and by political action on the part of Charles Schumer, the current Senate Minority Leader. I understood Ms. Dipp to be asking whether Las Palmas would agree to action by the FAA to enact a rule prescribing approach and departure paths that would avoid the RANA neighborhood. The short answer is that FAA action is not necessary and could not be obtained at this time. The FAA rule discussed in the article was generated by constant passenger helicopter traffic between New York City and Long Island. The most obvious distinction here is that the Las Palmas helispot will be used only to transport patients in need of emergency medical treatment as opposed to continuous passenger traffic and that the number of flight operations will probably be no more than several times a month. Most important, however, is the fact that the New York Final Rule was enacted based on complaints. The helispot is not even operational at this point. Complaints at this point in time about future flight operations would be premature at best. Further, the approach and departure paths approved by the FAA are such that the RANA neighborhood will not be impacted in any material way. Las Palmas fully expects that helicopter medivac services will use the approach and departure paths unless it becomes unsafe to do so. There could be an instance when a helicopter approaching or departing from the helispot has to fly over the RANA neighborhood for safety reasons but that should be rare and is not too great a price to pay for benefit to persons in need of medical care. At this point in time, the FAA would not consider any rule making because there is no factual basis (no complaints based on actual noise issues) for a rule requiring a specific flight path.

6. **Improvements to RANA neighborhood:** You provided Las Palmas with a list of improvements (14 bulb-outs, 3 monument signs and 3 park benches) that are estimated to cost \$653,500.00. Las Palmas understands that RANA is asking Las Palmas to pay for some or all of these improvements. These improvements may be desirable to enhance the neighborhood but Las Palmas can see no rationale for requesting that it fund these items. The need for these improvements cannot be tied to any action or nonaction by Las Palmas. RANA should canvass its members to find out if funding the cost of these improvements is feasible.

7. **Creation of a Residential Parking District:** You asked if Las Palmas would support the creation of a residential parking district under Section 12.44.280 (C) of the El Paso City Code. Las Palmas is of the opinion that a residential parking district would be the most effective way of keeping nonresident owned cars and trucks from parking in the neighborhood and would provide the City with a letter supporting the request to create such a district.

Ms. Risher Gilbert
Ms. Suzanne Dipp
Ms. Mika Cohen-Jones
Mr. John Moye
October 11, 2018
Page 7

Las Palmas has reviewed the parking issues raised by RANA very carefully and now believes that the problems you have described are the result of parking by UTEP students and employees of other business entities in the area. A residential parking district will probably remedy those issues. With respect to the helispot, this is a very valuable service that will greatly benefit El Pasoans and other persons who need emergency treatment that cannot wait. The minimal impact of the planned helispot should not be an issue.

Very truly yours,

Francis S. Ainsa, Jr.

LEASE TERM SHEET

Landlord: Hunt Mesa 3333, LLC, a Delaware limited liability company

Tenant: El Paso Healthcare System, Ltd. d/b/a Las Palmas Medical Center

Premises: Approximately 4.662 acres of land, more or less, being a portion of Lot 3, University Center, City of El Paso, El Paso County, Texas, known as 3333 N. Mesa Street, as described on Exhibit A, together with improvements thereon and appurtenances thereto owned by Landlord, including ___ nonexclusive parking spaces, save and except a to be determined amount of retail and/or commercial space ("**Commercial Space**"), including pad sites, fronting Mesa Street as generally depicted on Exhibit B appended hereto.

Lease Term: 10 primary term with two 5-year renewal options.

Rentable Sq. Ft.: 34,898 square feet (building)

Rental Rate: Annual base rental of ~~12.20~~ per Rentable Square Foot with a 10% escalation at the beginning of (i) the 6th lease year and (ii) each renewal term pursuant to an exercised renewal option.

Net Lease: Landlord shall not be required to make any expenditure, incur any obligation (other than those expressly set forth in the Lease), or incur any liability of any kind whatsoever in connection with this Lease or Tenant's financing, ownership, construction, maintenance, operation, or repair of the Premises or the Improvements. The Lease shall be a completely net lease intended to assure Landlord base rental on an absolute net basis.

Tenant Improvements: None

Reservations: Landlord reserves the right to (i) reconfigure (but not reduce) existing and future parking spaces within the Premises; (ii) remove, reconstruct or reconfigure or relocate the existing building canopy and (iii) reconfigure the Commercial Space at any time.

Signage: Landlord shall at its cost erect a new monument sign with space reserved for Tenant and tenants of the Commercial Space; all other signage shall be subject to Landlord's approval not to be unreasonably withheld.

Security Deposit: \$0

Permitted Use: Tenant shall use and occupy the Premises only for (i) a rehabilitation center and/or other medical uses including, without limitation, cardiac and pulmonary rehabilitation, physical therapy, and wellness/fitness, industrial machine, sports programs and other related and/or ancillary purposes and (ii) up to 135 non-exclusive parking spaces as off-site parking for employees of Las Palmas Medical Center or any other medical facility owned or operated by El Paso Healthcare System, Ltd.

Form of Lease: Landlord shall initially draft a lease incorporating the foregoing terms. The Lease shall be in form and substance acceptable to Landlord in its discretion reasonably exercised.

This Term Sheet sets forth some of the basic terms and conditions to be incorporated in a formal written lease agreement. The final lease agreement shall be in form and content satisfactory to each party and its counsel in their sole discretion.

Dear Ms Guayante ,
I am writing in connection with Las Palmas hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, I wish to object strongly to the special permit requests currently scheduled for vote by City Council on August 21st." The RIM Area Association has sent a letter outlining the objections and asks that the vote be postponed in order for continued discussions on the request.

Sincerely,

Dear Ann—

I am writing in connection with Las Palmas hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, I wish to object strongly to the special permit requests currently scheduled for vote by City Council on August 21st.

We would like the opportunity to both speak with the COO of Las Palmas on our concerns, as well as, delay any vote on this matter until we have had an opportunity to voice our concerns in person.

Sincerely,

Suzanne Dipp

Date: Monday, August 13, 2018 2:43:29 PM

Dear Ms. Guyante:

I am a resident of the Rim area and a member of the Rim Area Neighborhood Association. I understand that there is a hearing planned for August 21 regarding a special parking permit for Las Palmas Hospital.

I respectfully request that this Special Permit be denied. My home, at 619 E. Blacker Avenue, is located just about 7 blocks east of Las Palmas and about 9 blocks from UTEP. In recent years UTEP students have been parking in our neighborhood more and more, taking up spaces that would normally be use by adjacent residents. It would seem that zoning regulations would require that any new business starting up in this area would be required to provide sufficient parking for its operations. Las Palmas and UTEP both have on site or nearby off street parking , but if these are not sufficient, or too costly or inconvenient for patients and students to utilize, those enterprises should solve the problem with additional on site parking - not us.

Dear Ms Guyante,

I am writing on behalf of my husband and myself in connection with Las Palmas hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, we wish to object strongly to the special permit requests currently scheduled for vote by City Council on August 21st. The neighborhood should be able to weigh in on many of these matters and how it will impact our street. Additionally, we believe since the hospital is adding square footage to their building they also should be required to provide enough parking for their staff onsite instead of in our neighborhood. This is not a viable solution.

Sincerely,

Wendy and Steve Lanski

Ann Guayante
Senior Zoning Planner
City of El Paso

Dear Ms. Guayante:

As a resident of the high-rise condo building closest to Las Palmas Hospital and as a former (2008-2018) member of the Rim Area Neighborhood Association's Board of Directors (and its Secretary 2011-2018), I join the current Board and my Rim Area neighbors in strongly opposing the Las Palmas hospital's special permit requests. At the very least, a senior representative of Las Palmas must agree to meet with the RANA Board and the RANA membership (ca. 200 at last counting) in advance of City Council's vote, scheduled for just eight days from now.

Sincerely,

Richard Teschner

Subject: your voice is needed to protect our neighborhood

Dear Rim Neighbors:

We need your voice.

Las Palmas Hospital is requesting a series of special permits, currently scheduled for public hearing and vote on August 21st. Your neighborhood board has unanimously agreed that the impacts are likely to be very detrimental. We have sent our district representative a letter on behalf of Rim residents (see attached) opposing the special permit requests and asking to postpone the public hearing and vote until we as residents have a chance to weigh in.

We encourage you and any Rim Area residents to **write a brief e-mail to Ann Guayante**, Senior Zoning Planner, City of El Paso [mailto:GuayanteAM@elpasotexas.gov] as soon as possible.

You should feel free to create your own language, or your brief e-mail can simply say:

"I am writing in connection with Las Palmas hospital's request for a series of special permits.

As a resident of the Rim Area neighborhood, I wish to object strongly to the special permit requests currently scheduled for vote by City Council on August 21st."

Feel free to refer to the letter we have already sent to the city (attached here). Please also make sure to add your full name, residential address, and perhaps a phone number at the bottom of your e-mail.

Mika Cohen Jones
RANA Secretary 2018

Peter

Thanks for taking the time to stop by the house on Sunday, appreciated the time to chat. As a resident of the Rim Road and Kern areas for 34 years the parking problem due to UTEP has become increasingly worse over time. What the City has allowed UTEP students to do in taking over the streets and making it untenable for residents to have access to park or access their property at times, narrowing the streets and making it dangerous for students, residents and drivers should never have been allowed to happen. Although UTEP and the even the City have participated in building parking structures the cost and limited spaces make students not want to park in those structures and our neighborhoods suffer the consequences. While the City has no ability to control what UTEP does it does have control over private industry and consideration of allowing the hospital to add to the overcrowding should not be allowed. I stand with the Rim Area Neighborhood Association in urging you to deny this special request for parking by Las Palmas Hospital, the letter from RANA to you is attached.

Thanks, Rob

Subject: Proposed Las Palmas Special Permits
Date: Monday, August 13, 2018 5:26:02 PM

Dear Mayor Margo, Councilmen Svarbein, Councilwoman Lizarraga, and Planner Guyante,

With the exception of Ms. Guyante, I have the pleasure of knowing all of you personally. On behalf of my wife, Debi, and myself I am writing to urge you to either vote "no" or to postpone the vote on the request by Las Palmas for various special permits and waivers. It has come to my attention that Las Palmas has moved forward with their construction and requests for permits and waivers without so much as consulting the local neighborhood association.

Dee, we used to have the neighborhood association annual luncheons just in front of your old house. Peter, you know what a strong network the Rim Road Neighborhood Association has. Cissy, I would welcome the opportunity to walk you around the neighborhood to introduce you to our neighbors, but knowing where you and the Judge live, I know that you appreciate the value of these established neighborhoods and the imposition that daily transient parking can have on a neighborhood.

The Neighborhood Association is not asking for very much here, only for a chance to be heard. For years, we have contended with the overflow of UTEP students parking up and down our streets. For the bigger sporting events, we even see parking for the Sunbowl back up into our neighborhood. What Las Palmas is proposing will only add to this issue with no reasonable alternative to offer. Not to mention the other noise impositions that low flying helicopters will cause for anyone's peace of mind and sanctity.

Please take the time to make sure that your valued citizens are heard and have a chance to have input on how to best deal with this new construction which has already been undertaken.

Thank you for your time and consideration.

Respectfully,

Subject: Las Palmas parking
Date: Tuesday, August 14, 2018 4:33:21 PM

I recently learned that Las Palmas Medical Center has requested special parking exceptions for their new construction. From what I understand, the City is considering an exemption for Las Palmas. I believe they should build parking for their expected increase employees and patients at the new facility at Hague and Mesa and not receive any special permit to avoid providing nearby parking for their employees.

As a homeowner at 1901 N. Kansas Street (at the corner of Hague), we already have a lot of trouble finding space for parking near our home. Often I cannot park my vehicle near my house because of Las Palmas employees, UTEP students and others (I assume) who park on the streets because their employers do not provide parking.

This should be obvious, but just in case — Las Palmas MUST be required to provide nearby parking sufficient for the increase expected with their new facility. Talk of a shuttle from the Life Care Center makes little sense, because employees will choose to just park in the nearby neighborhoods rather than use the shuttle. Las Palmas must provide parking within 1/4 mile, at most, of its new facility.

Again, I am against Las Palmas' request for any special permit. I object strongly to the requests scheduled for a vote by the City Council on August 21.

Ms. Guayante,

I write to you today to express our concern and to voice our strong opposition to the special permits request of Las Palmas Hospital scheduled for a City Council vote on August 21, 2018. As residents of the neighborhood directly affected by these special permits, it is imperative that the City take a more proactive approach with these large organizations and develop appropriate solutions to the already overburdened and limited parking in our neighborhood. We welcome visitors to our historic and scenic location and feel grateful to be residents in this area; however, adding to the congestion and not addressing the expansion of Las Palmas with an adequate increase in parking is simply unacceptable.

Thank you for ensuring our objection is recorded before City Council's vote next week. If you require any additional information or clarification on my email, please do not hesitate to reach out to us.

Respectfully,

Subject: Las Palmas Hospital Request
Date: Wednesday, August 15, 2018 8:14:40 PM

I am writing to register opposition to Las Palmas Hospital's request for a series of special permits in the Rim Area neighborhood. It is problematic that the El Paso City staff is recommending a parking waiver of 119 off-street parking spaces in an already congested area. Rim Area Neighborhood Association (RANA) residents already have a parking issue at and near their homes and the hospital's request would exacerbate the situation.

As a homeowner, I also oppose the proposed heliport without more protective measures for residents in the neighborhood.

I respectfully request denial or deferral of the request currently scheduled for public hearing and City Council vote on 21 August 2018. Postponement is requested until the CEO of Las Palmas and staff members can meet with the officers of RANA for discussion of these issues.

Please let me know if you have any questions.

I am writing to express my objection to Las Palmas Hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, I have watched the parking situation in our neighborhood become increasingly a problem with the growth of UTEP, The Street Car project (a loss of 90 parking spaces) and now Las Palmas asking for a waiver for 104 additional parking spaces. The Council earlier this year heard our concerns when we asked the Council to facilitate a meeting with UTEP on parking. Representative Svarzbein did indeed help us get this meeting and we continue to work with UTEP on the parking issue. Approving this waiver would only exacerbate the parking problem in our neighborhood.. I request the this item be denied until Las Palmas can come up with a solution that will satisfy the neighborhood's concerns.

Ms. Guayante,

I have recently learned that Las Palmas Hospital has requested a series of special permits involving parking. I oppose the city granting ANY parking variances. I am a 35 year resident of the Rim Area neighborhood. Parking is probably the greatest concern for many residents in this area. Although I am in the 600 block of Blanchard, in recent years, UTEP students were parking all the way up to our block. Some of us do not have garages or garage access due to narrow alleys and need to be able to park in front of our homes, not to mention space for our visitors. Although our block agreed to "No Parking" poles, which are effective, though unsightly, there are many areas where UTEP student parking creates constant congestion and dangerous conditions. It is virtually impossible to see around corners when people have parked right up to the intersection, as they are allowed to do. The streets are narrow and when cars are parked on one or both sides of these streets, there is little room for two lane traffic. (In addition to UTEP students, we now have workers who are involved in the Las Palmas building project who are parking in the neighborhood.)

I am absolutely opposed to any parking variances in the areas surrounding Las Palmas. As Risher Gilbert pointed out in her recent letter, most Las Palmas employees will NOT take a shuttle from Life Care to the hospital. They will park in the neighborhood and then risk crossing Stanton (now with the addition of a streetcar!) and even more dangerous Mesa to get to work.

Dear Ann,

I urge the city to decline all three special permit requests submitted by Las Palmas. I also urge the city to delay a vote until we have all the facts regarding their current compliance with city ordinance. Neighborhoods need to be taken into account at the front-end of these sorts of projects and requests. At this point the neighborhoods need to be taken seriously at the negotiating table and we must start by opposing the request of such a big business to be immune to the basic rules the city has laid out.

I would also like to submit that a holistic approach to these issues--particularly around parking--is desperately needed in the Rim/Kern/Sunset Heights areas as well as around the city. It makes no sense to us as taxpayers and constituents to deal separately with each business and UTEP and other partners. There are parking needs and we hope the city will play a central role in bringing key players to the table (including us!), envisioning future needs, and moving forward collaboratively.

Sincerely,

Mika Cohen Jones

Dear Ms. Guayante,

I am writing in connection with Las Palmas Hospital's request for a series of special permits.

As a resident of the Rim Area neighborhood, I wish to object strongly to all three special permit requests currently scheduled for vote by City Council on December 18th.

There is no basis to grant special permits when, as a corporate entity, Las Palmas did not properly plan for its parking needs in conjunction with a facilities expansion.

The taxpayers (and residents of the Rim Area neighborhood) should not bear the burden of improper planning or investment by a business entity.

Thank you.

Ms. Guayante

I am writing in connection with Las Palmas hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, I wish to object strongly to all three special permit requests currently scheduled for vote by City Council on December 18th.

The current construction at the hospital as well as UTEP student parking has placed a tremendous burden on the neighborhood and causing daily problems with congestion, visibility and safety. These special permit requests will only add to the current problems which have not been adequately addressed by the City.

As a resident of the Rim Area I strongly oppose any action that would further increase the detrimental effects non-resident parking is having on the neighborhood

Dear Ms Guayante,

I am writing in connection with Las Palmas hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, I wish to object strongly to all three special permit requests currently scheduled for vote by City Council on December 18th.

The parking in our neighborhood is already out of hand due to UTEP's lack of parking on campus.

Driving on Rim Road, Mesa Street, Stanton Street, Kerby Street, University Street, Kansas Street, New York Street, Blanchard Street, Blacker Street and all cross streets close to the University has become dangerous.

I can't see left or right at a stop sign because there are so many cars parked along the curbs. Students walk in the street by themselves and in groups. Sometimes I can't see them. One day there will be an accident between a student/automobile. It's just a matter of time.

By agreeing to Las Palmas requests to be able to downsize the required amount of parking space required by law you are putting our neighborhood, pedestrians and drivers at risk.

Please postpone the public hearings on December 18.

As someone who lives near Rim Road I want to have a chance to hear all of the facts and weigh in before the City votes on Las Palmas request.

Thank you.

Ann,

My husband, Rut Lilly, and I strongly object to the request by Las Palmas for 3 parking waivers, which will strongly affect our residential neighborhood. The Rim neighborhood is under strong pressure from commercial businesses and has gone out of our way to adopt an NCO to protect the quality of life in area. Las Palmas is ignoring the neighborhood, in order to save money for their corporation and stockholders. I am asking the City to take a stand to protect their tax payer's property from an unnecessary intrusion.

I am opposed to both the Las Palmas parking reduction and helistop special permits. The myriad of errors, code violations and dishonesty on the part of the hospital and city staff require that parking solutions be implemented in advance of a C of O being issued. The city, being a major contributor to the problems affecting the neighborhood, should immediately begin a comprehensive parking strategy for the area that includes a parking district for the Rim neighborhood—and one that is not heaped on the neighborhood to do all the work.

Please add my objections to the counts for the City Council Hearing date.

Dear Ms. Guayante,

I live at 800 Blanchard Avenue and am writing you in connection with Las Palmas Hospital's request for a series of special permits. As a resident of the Rim Area neighborhood, I wish to **strongly** object to all three special permit requests currently scheduled for vote by City Council on December 18th. I believe they will be a detriment to my property and the neighborhood by increasing commercial parking within the neighborhood, taking street parking from small businesses located on Stanton, Mesa, and Oregon, and increasing noise levels in the area with their proposed heliport. Las Palmas should be required to provide parking per the current zoning requirements, adjacent to or within walking distance of their hospital addition. Structured parking should be required. Furthermore, they should be required to shield the neighborhood from any noise associated with the heliport. Zoning variances are unacceptable.

Please call me at the number below if you have any questions.

Sincerely,

John E. Moyer

Dear Ms. Guayante,

As a resident of the Rim Area neighborhood, I am more than distressed about the special permits requested by Las Palmas Hospital with regard to its employee parking and construction of a helispot.

This hospital's lack of regard and concern for its residential neighbors is appalling. Driving through my home neighborhood has become a nightmare of hazard with hospital employees' parked cars blocking safe passage through our residential streets.

The noise and disturbance from potential helicopter traffic would be unbearable and destroy the "quality of life" the El Paso city government claims to value and promote.

I object fervently to all three special permit requests scheduled for a vote on December 18, 2018.

Hi Ann,

I would like to express my concern as a resident of 79902 regarding the special permits requested by Las Palmas. The meeting yesterday was very informative. I'm sure that a solution can be achieved if City Council and the decision makers put their heads together.

I wanted to tell you after the meeting but I had to leave early: You always handle questions and concerns so well in council meetings and yesterday as well. Yikes, you have a tough job!!

Lynn

Good Morning Ms. Guayante,

It has come to my attention that Las Palmas Medical Center has applied for three special permits that are absolutely in their power to avoid, through responsible development. It is unfortunate that a business of means, such as this one, can apply and expect to receive such dispensation, when the vast majority of businesses (and especially "Mom and Pops" SB's) meets parking codes on site.

I hope the City of El Paso will consider the community surrounding the hospital when determining whether to issue these permits. Growth is inevitable in suburban areas. Let's make sure it is responsible growth.

Thank you for your time.

As a resident of Rim Road I am strongly opposed to the Las Palmas special permits. Our once quiet, residential neighborhood has become overrun with non-resident parking. Our street intersections are very dangerous to both vehicles and pedestrians. 10,000 more UTEP students than when we first moved here; Stanton Street trolleys and ridiculous bike lanes; unnecessary parking meters and bike rentals at Stanton and Cincinnati have created a "dodge ball" traffic flow. The Las Palmas request will be the proverbial last straw that breaks our neighborhood back. R.A. Behrenhausen 1101 Rim Road.

Subject: Opposition to Las Palmas Hospital's refusal to build a multi-story parking structure, and to the hospital's unrestricted helistop
Date: Thursday, December 13, 2018 4:15:46 PM

Ann Guayante
Senior Zoning Planner
City of El Paso

Dear Ms. Guayante:

I am writing to express my opposition to two positions taken by El Paso's Las Palmas Hospital at or near its 1701 N. Oregon Street location. Those positions are:

(1) Las Palmas refuses to build a multi-story parking structure on its own property to house the vehicles of its employees, its patients and their visitors. This refusal is what has prompted Las Palmas to request that City Council approve a 120-space "parking vacation" on City streets to the south and to the east of the hospital campus itself. Folks who live on those streets and their visitors (tradespeople, delivery vans, repair people, friends, relatives, etc.) will be totally shut out by such a "vacation." All of them pay property taxes (whether directly or as part of their rent) and must not be denied the right to park on the street just in front of their homes or the homes that their trades require them to visit.

(2) The Las Palmas helistop—a launching pad for helicopters—appears to have been given the go-ahead by City of El Paso staffers. I have no problem with helistops—everyone knows that Las Palmas competes with Providence, which has long had its own helistop—but where are the restrictions on the new Las Palmas helistop? For example, will LP helicopters be allowed to fly directly over the Rim Area neighborhood (whose western boundary is the alley between Stanton and Mesa) and if so then on a 24/7/365 basis and (more importantly) at what altitude? These are matters that should have been discussed with Rim Area neighbors, especially those of us who live quite close to the hospital's new building itself, which is located on the SW corner of Hague Road and Mesa Street.

It's my understanding that City Council will take up these Las Palmas issues at Council's December 18th, 2018 meeting.

Sincerely,

Subject: Denial of Las Palmas Waivers
Date: Wednesday, December 19, 2018 9:51:25 PM

Dear Ms. Guayante:

I am writing to strongly urge El Paso City Council to deny approval of a series of waivers that Las Palmas (HCA) is seeking in regard to their recent hospital expansion. I am a resident of the Rim area neighborhood and am strongly opposed to granting these waivers.

As a member of the Rim Area Neighborhood Association, we have met with Las Palmas and city officials several times concerning these waiver requests and feel that the granting of these waivers will further exacerbate the parking pressures our neighborhood is experiencing. The Las Palmas's plan to use the Life Care Center on Mesa Street for additional employee parking is not a viable solution in complying with city ordinance parking requirements since this property is not owned by Las Palmas. The University of Texas System owns and controls this property and leases it to Las Palmas. Additionally, the Las Palmas's plan to use vans to transport employees from the Life Care Center to their place of employment about a mile away is not best employment practice.

Further, Las Palmas insists that they will not need to employ additional staff while increasing their hospital square footage by an additional 96,000 square feet. At a recent meeting attended by Rim, Kern, and Sunset Heights neighborhood associations, Las Palmas officials could not explain how they plan to maintain and clean this additional square footage without adding maintenance and custodial employees as recommended by industry standards.

Please deny the waivers that Las Palmas is seeking:

- Another helistop in the neighborhood is not needed. Providence Hospital has an established helistop;
- The Las Palmas Life Care Center is not a logical solution to meeting City Ordinance parking requirements;
- Las Palmas must consider building a parking facility for their employees, patients, patrons, and visitors.

Respectfully,

Renee O'Donnell

Subject: SHNIA letter of opposition to Las Palmas parking waiver
Date: Thursday, January 17, 2019 7:08:07 AM

Honorable Mayor and Council:

The Sunset Heights Neighborhood Improvement Association (SHNIA) joins in opposition to the proposal to give Las Palmas another parking waiver. We agree with the main points made by the Rim Area Neighborhood Association.

Las Palmas is a major corporation, and in this case, a developer. They have the capacity to build the onsite parking required by City code to account for the traffic and parking generated by their business, and there is no reason they should not.

Respectfully,

Sito Negrón
President, SHNIA

Chapter 20, Appendix C

I. INTRODUCTION

A. STUDY SCOPE AND OBJECTIVES

Kimley-Horn completed a review of the existing parking operations and future parking conditions at Las Palmas Medical Center (referred to in this report as Las Palmas) in El Paso, Texas. This study determines the existing parking demand of the medical center and includes recommendations to support the parking required in the future. The property currently has a Special Permit for shared parking under Ordinance No. 15618 through the City of El Paso. Building additional improvements requires that the terms stated in this ordinance be assessed to determine the future parking required and if adequate parking supply will be provided.

B. SITE INFORMATION

Las Palmas Medical Center is bounded by El Paso Street, Hague Street, Mesa Street, and Schuster Avenue in El Paso, Texas. HCA has plans for a building expansion of the existing facilities. The existing Las Palmas Medical Center is approximately 440,298 square feet (SF) of hospital land use and provides comprehensive healthcare services.

The roadway network in the vicinity of the facility includes Schuster Avenue fronting the south side of the site and Mesa Street fronting the east side. Rim Road and Oregon Street provide access through the campus to the main buildings at Las Palmas Medical Center. A location map (aerial) of Las Palmas Medical Center is shown in **Figure 1**.

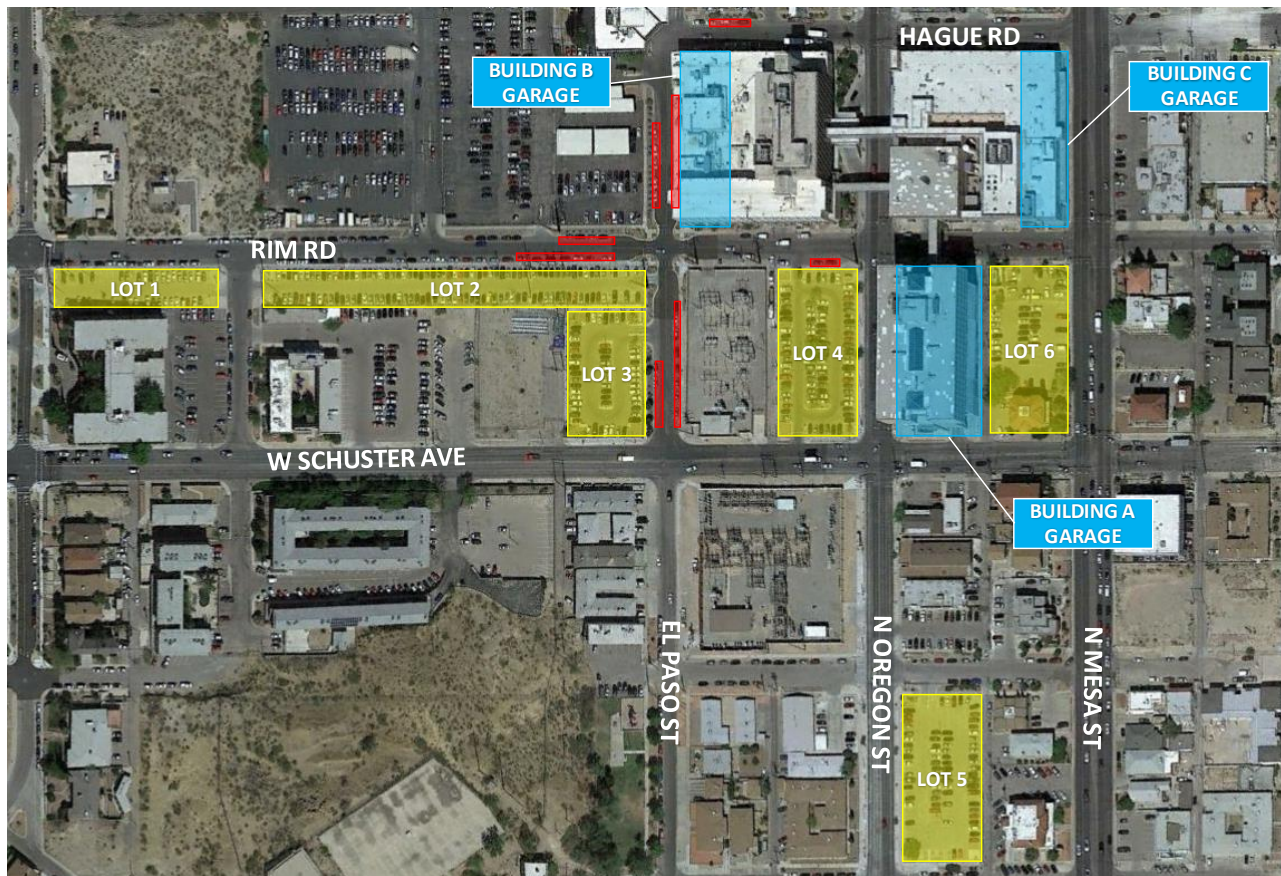

Figure 1 – Site Location

Las Palmas Medical Center existing off-street parking facilities include three parking garages and six surface lot parking throughout the campus with a total of 813 designated parking spaces as shown on **Figure 2**. Site plans of the existing garage parking layouts and surface lot parking facilities are shown in **Figure 3** and **Figure 4**, respectively.

There are currently 43 on-street parking spaces (15 open/free and 28 metered) that are located within 300 feet of the Las Palmas buildings. The areas of these spaces are shown in red on **Figure 2**. The open/free on-street parking is located on Rim Road north of *Lot 2* west of El Paso Street. Metered parking spaces were located on Hague Road (between El Paso and Oregon), El Paso Street (between Rim and Schuster), and Rim (between El Paso and Oregon).

Figure 2 – Parking Location Map

C. PARKING LOT DESCRIPTIONS

This report references several surface lots and parking garages used by Las Palmas Medical Center. These garages and parking lots have various descriptions used previously for discussions with the City of El Paso. For simplicity, this report is consistent with the naming convention shown in **Figure 2**. **Table 1** provides brief descriptions, used previously, to identify each parking area. This table is provided for information purposes only. Refer to **Figure 2** for parking area naming convention used in this report.

Table 1 – Surface Parking Inventory Supply

Parking Area	Description
Surface Lot 1	Randolph at Rim Surface Parking (Leased)
Surface Lot 2	El Paso at Rim Surface Lot (Leased)
Surface Lot 3	El Paso and Schuster Parking
Surface Lot 4	Surface Lot "A" Oregon at Rim
Surface Lot 5	Crosby Park Surface
Surface Lot 6	Surface Lot "B" Mesa at Rim
Surface Lot 7	LifeCare Center Parking
Building A Parking Garage	Oregon Building Garage
Building B Parking Garage	Hospital Garage
Building C Parking Garage	ED ICU Parking

D. CITY PARKING REQUIREMENTS

Per the City of El Paso Code of Ordinances (*Chapter 20, Appendix C*), the City requires that hospital facilities meet the following parking requirements:

- One space per 576 square feet of Hospital GFA (gross floor area)

The existing facility totals 440,298 square feet GFA. Based on the current code, the City of El Paso requires 764 parking spaces for the existing development. Existing parking supply exceeds the City of El Paso requirements.

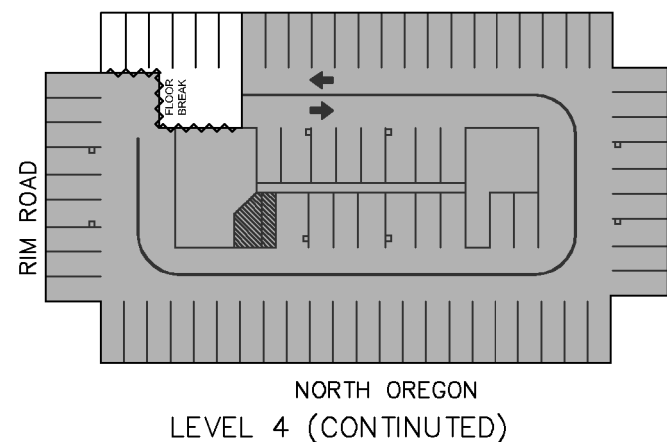

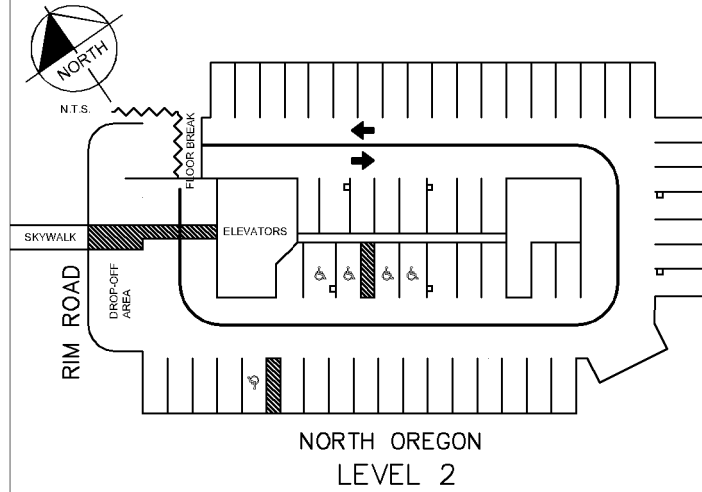

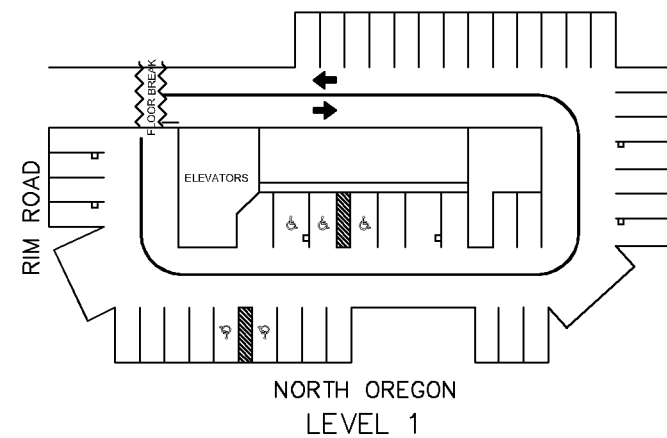

An excerpt of the City of El Paso Code related to parking requirements is provided in the **Appendix**.

E. FUTURE HOSPITAL EXPANSION

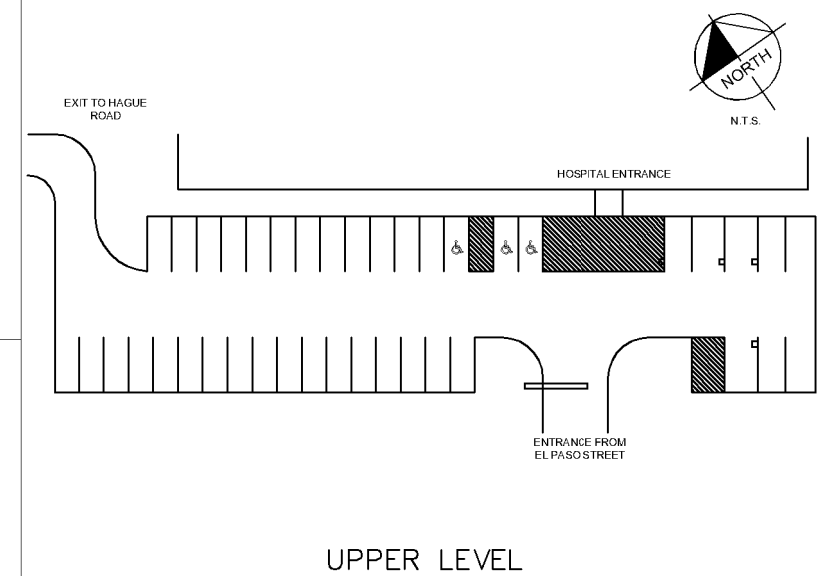

Planned improvements at Las Palmas Medical Center would increase the overall building size by 96,402 for a total of 536,700 square feet GFA. Based on the current code, the City of El Paso requires 932 parking spaces for the development including the proposed building improvements.

The proposed improvements will have minor impacts on the existing parking and will result in the loss of 20 parking spaces in *Lot 6*.

II. EXISTING PARKING ANALYSIS

A. METHODOLOGY

As part of the study, Kimley-Horn determined the existing parking supply inventory, completed an hourly parking occupancy survey, and assessed the existing parking adequacy at the site. The parking space inventory provided the parking supply capacity available at Las Palmas. Hourly occupancy data was compared to the parking supply capacity to determine percent occupancy by hour and by parking space type. Quantitative demand and field observations were used to determine if the existing parking supply is adequate to meet parking demand.

B. PARKING SUPPLY INVENTORY

Existing parking areas at Las Palmas are allocated by parking type (garage, surface, and on-street) and user type. For purposes of completing the inventory of existing parking supply, parking spaces were grouped into the following parking user categories: public, staff, or special care/reserved parking. Most reserved staff parking is located in the surface lots along the west side of the property and public parking is located in the central parking garage and two surface lots south of the site.

Due to construction, parking supply varies between existing conditions and conditions at the time data was collected. Parking supply was impacted at *Building B Parking Garage* as some space was utilized for storage. Parking supply was impacted at *Building C Parking Garage* due to construction and closure of the north entrance from Hague Road. **Table 2** shows the parking supply available by parking type and user type for existing conditions and during construction.

Table 2 – Surface Parking Inventory Supply

Parking Type	User Type	Parking Area	Existing	During Construction
Garage	Public	Building A - Level 1	46	46
	Public	Building A - Level 2	60	60
	Public	Building A - Level 3	75	75

	Staff	Building B - Upper Level	40	40
	Special	Building C - ER Parking	28	23
Surface	Staff	Surface Lot 1	51	51
	Staff	Surface Lot 2	119	119
	Staff	Surface Lot 3	55	55
	Public	Surface Lot 4	92	92
	Public	Surface Lot 5	92	92
	Special	Surface Lot 6	62	0
Off-street Parking Total			813	746
On-Street	Public	Street Metered Parking	28	28
	Public	Street Unmetered Parking	15	15
On-street Parking Total			43	43

C. PARKING OCCUPANCY SURVEYS

Parking occupancy data was collected in the garage and surface lots over a twelve-hour period, between 7:00 am and 7:00 pm on Thursday, November 16, 2017. Each hour, the field crew noted if each parking space was vacant or occupied. **Table 3** shows the hourly data for the occupied surface parking spaces by parking type and user type.

Table 3 – Parking Demand By Hour

Parking Type	Garage			Surface		On-Street
User Type	Public	Staff	Special	Public	Staff	Public
Parking Supply	267	47	23	184	225	43
7:00 am	76	29	12	114	194	26
8:00 am	136	34	20	142	205	36
9:00 am	236	36	22	146	208	41
10:00 am	242	39	24	152	214	38
11:00 am	238	37	25	153	214	41
12:00 pm	164	33	28	143	208	40
1:00 pm	179	34	25	150	206	41
2:00 pm	178	28	27	150	203	41
3:00 pm	141	31	25	109	174	35
4:00 pm	92	26	19	92	157	31
5:00 pm	72	22	26	71	123	18
6:00 pm	64	17	20	82	124	19

Table 4 presents the hourly occupancy percentages by parking type and user type. The occupancy is shown as a percent of parking supply available during construction. The values in this table include emergency care visitors parked in non-designated areas of the *Building C Parking Garage* as additional demand which exceeds the current parking supply of this garage.

Table 4 – Parking Occupancy Percentages by Hour

Parking Type	Garage			Surface		On-Street
User Type	Public	Staff	Special	Public	Staff	Public
Parking Supply	267	47	23	184	225	43
7:00 am	28%	62%	52%	62%	86%	60%
8:00 am	51%	72%	87%	77%	91%	84%
9:00 am	88%	77%	96%	79%	92%	95%
10:00 am	91%	83%	104%	83%	95%	88%
11:00 am	89%	79%	109%	83%	95%	95%
12:00 pm	61%	70%	122%	78%	92%	93%
1:00 pm	67%	72%	109%	82%	92%	95%
2:00 pm	67%	60%	117%	82%	90%	95%
3:00 pm	53%	66%	109%	59%	77%	81%
4:00 pm	34%	55%	83%	50%	70%	72%
5:00 pm	27%	47%	113%	39%	55%	42%
6:00 pm	24%	36%	87%	45%	55%	44%

D. PARKING ADEQUACY

Per the parking supply inventory, the total number of existing off-street parking spaces was determined to be 813 spaces (746 spaces during time of data collection due to construction). The total number of off-street parking spaces for existing conditions currently required by the City of El Paso is 764 parking spaces based on 440,298 square feet of hospital. This is using the most current code requirement of 1 space per 576 square feet. The existing site provides a surplus of 49 parking spaces. The current parking adequacy is shown in **Table 5**.

Table 5 – Current Parking Adequacy (2017)

Parking Type	Existing Parking Supply	Construction Parking Supply	Observed Occupancy at Peak Hour (10:00am)	Functional Parking Surplus/(Deficit) during Construction	Existing Required Parking* Surplus/(Deficit)
Garage	342	337	305	32	
Surface	471	409	367	42	
Total	813	746	672	74	49
*764 spaces are required per City of El Paso guidelines.					

III. FUTURE PARKING ANALYSIS

A. FUTURE PARKING IMPROVEMENTS

As discussed previously, *Lot 6* will be reconfigured and have an reduction in parking supply of 20 spaces. A schematic of the proposed *Lot 6* configuration is shown in **Figure 5**. Planned improvements at Las Palmas will include additional parking in the LifeCare Center parking lot (*Lot 7*) which will provide an additional parking supply of 247 spaces in the future condition for use by Las Palmas staff. Shuttle service will be provided to/from *Lot 7* to the main Las Palmas campus for staff using this lot. An aerial schematic of the existing LifeCare Center parking lot is shown in **Figure 6**.

B. FUTURE PARKING ADEQUACY

Planned improvements at Las Palmas will modify the total number of vehicle parking spaces for future conditions currently required by the City of El Paso is 932 parking spaces based on 536,700 square feet of hospital. The future site provides 227 additional parking spaces. The future parking adequacy is shown in **Table 6**.

Table 6 – Future Parking Adequacy

Parking Type	User Type	Parking Area	Existing	Future	Required Parking* Surplus/(Deficit)
Garage	Public	Building A - Level 1	46	46	
	Public	Building A - Level 2	60	60	
	Public	Building A - Level 3	75	75	
	Public	Building A - Level 4	86	86

	Public	Surface Lot 5	92	92	
	Special	Surface Lot 6	62	42	
	Staff	Surface Lot 7	-	247	
Off-street Parking Total			813	1,040	108
On-Street	Public	Street Metered Parking	28	28	
	Public	Street Unmetered Parking	15	15	
On-street Parking Total			43	43	
* 932 spaces are required per City of El Paso guidelines.					
† Values for Building B Lower Level Garage represents existing parking supply.					
Additional parking supply can be provided if parking spaces used for storage/deliveries is clear.					

Figure 5 – Proposed Lot 6 Schematic Parking Layout

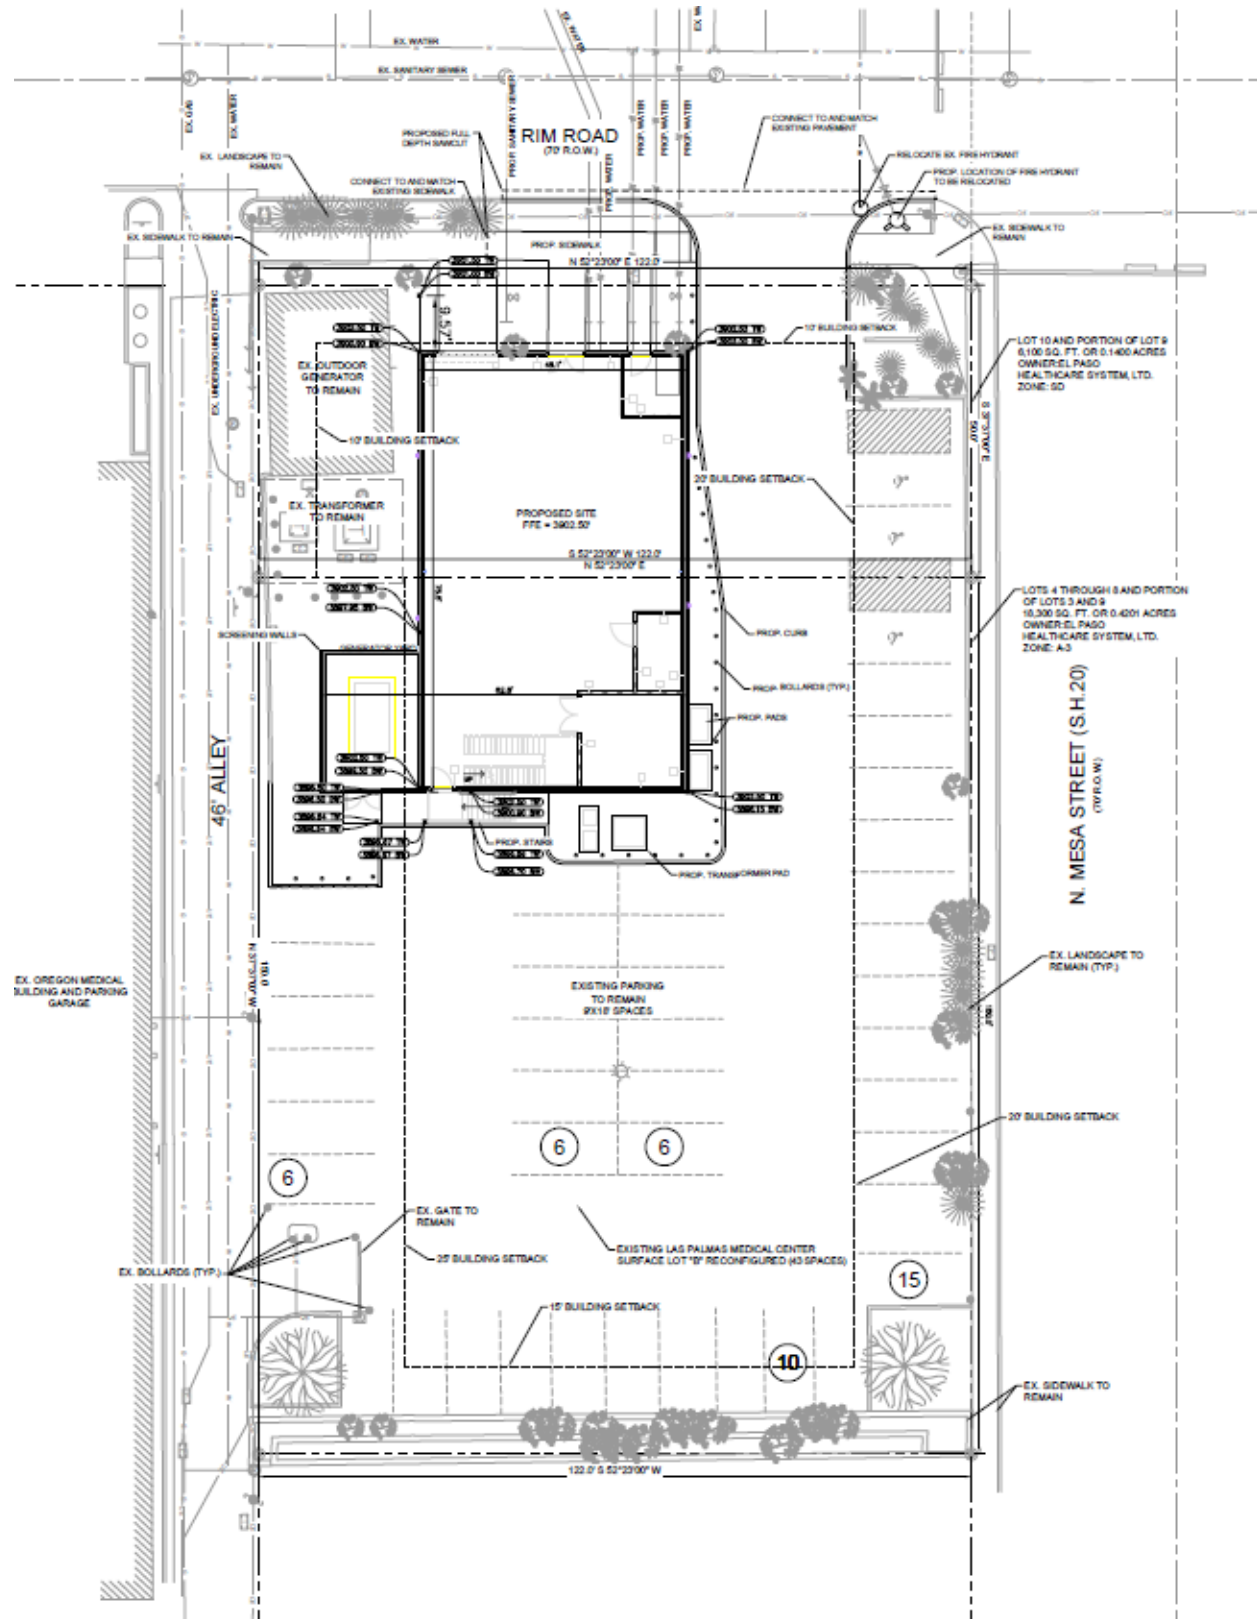

Figure 6 – Existing Lot 7 (LifeCare Center) Parking Layout

IV. CONCLUSIONS AND RECOMMENDATIONS

Based on field observations and parking occupancy survey, the existing parking supply is sufficient to handle the existing parking demand. Existing parking spaces provided meets the required spaces based on the current City of El Paso parking requirements outlined in the Code of Ordinances.

The proposed hospital expansion will require additional parking supply to meet the required spaces as there would be a parking deficit of 119 spaces based on the existing (non-construction) supply. The future off-street parking supply (1,040 spaces) planned by Las Palmas Medical Center provides a surplus of 108 spaces compared to the required spaces (932 spaces) with the mitigated shuttle service to and from the LifeCare Center parking lot (*Lot 7*). No additional parking mitigation is recommended at this time.

While not included as part of the off-street supply to meet the required spaces, on-street parking located within 300 feet of the Las Palmas Medical Center provides additional capacity for staff and visitors of the facilities.

Chapter 20, Sections 20.14.050, 20.14.060, 20.14.070

20.14.050 - Parking requirements and standards.

- A. Parking. Table of Parking Requirements and Standards, subsection C. of this title establishes the minimum and maximum number of motor vehicle parking spaces unless otherwise stated, and minimum bicycle parking spaces required for the uses indicated. The city manager or designee shall be authorized to interpret and establish the minimum and maximum parking regulations for uses not shown in the Table of Parking Requirements and Standards, subsection C.
- B. Method of computation. Calculations to compute the maximum number of required parking spaces shall be based upon the following formulae:
 - 1. Where the calculation of the required parking results in fractions of spaces, the number of spaces shall be rounded to the next highest whole number for fractions of 0.5 or greater.
 - 2. For new building(s) or development with more than one use, the parking maximum shall be determined by the sum of the number of parking spaces allowed for each individual use computed separately. A shared parking arrangement may be approved for a mixed use building, shopping center, or facility where the uses have different hours of operation or parking usage, in which case the parking requirement shall be based upon the calculation for the individual use or group of simultaneous uses that result in the largest number of off-street parking spaces required.
 - 3. For new building(s) or development with both permitted uses and accessory uses, the parking maximum shall be determined by the sum of the maximum number of parking spaces allowed for each individual use, permitted or accessory, computed separately. A shared parking arrangement may be approved for a site where the permitted uses have different hours of operation or parking usage from those of the accessory uses, in which case the parking requirement shall be based upon the calculation for the individual permitted use or group of

simultaneous permitted uses that results in the largest number of off-street parking spaces required.

4. Parking maximums for an addition to or enlargement of an existing building or facility shall be calculated on the basis of the addition or enlargement and shall be added to the parking maximum for the existing building or facility prior to the expansion. In the event the existing parking provided for the existing building or facility is nonconforming with the requirements of this chapter, refer to Chapter 20.22 (Nonconforming Situations).
 5. For a change of use(s) of an existing building or facility, or a portion thereof, the parking requirements shall be calculated on the basis of the sum of the current code required parking as applied to the changed use(s), plus the prior code requirements applied to the unchanged portion(s) of the existing building or facility; or on the basis of the current code for the entire building or facility, whichever is less.
 6. Where the parking calculation is determined by the gross floor area (GFA) of the building or facility, the GFA shall be measured to the exterior of the walls for every occupied floor. GFA of a building or facility shall not include areas used solely for off-street parking of motor vehicles or bicycles and associated driveways, and shall not include areas reserved for off-street loading berths.
 7. Where the parking calculation is determined by the number of seats or the number of occupants of a building or facility, the occupant load shall be per Title 18, Building and Construction, Chapter 18.08.
 8. The GFA of a restaurant, nightclub, bar or cocktail lounge with an outdoor seating area shall also include the gross floor area of such outdoor seating area.
 9. The GFA of a shopping center or other similar uses shall be based upon the entire shopping center, including the gross floor area of covered atrium and mall areas. The GFA of a shopping center shall not include the open well areas of the upper levels of a multi-story atrium or mall.
 10. Up to five percent of the minimum required vehicular parking spaces may be substituted with motorcycle parking spaces at the rate of one vehicular parking space for each three-motorcycle parking spaces provided. Motorcycle parking spaces shall be a minimum of seventy-five inches by thirty inches each exclusive of access aisles.
- C. Table of Parking Requirements and Standards. The parking standards and requirements are established in the Parking Requirements and Standards Table, located in Appendix C, adopted in its entirety and incorporated herein by reference, and unless otherwise provided for herein, all parking shall comply with the parking table.
- D. Off-street parking. Off-street parking regulations shall not apply to properties in the Improvement District No. 3, established by Ordinance 736 and dated April 3, 1952. The boundaries of Improvement District No. 3 shall also include all property designated under the Downtown 2015 Plan.
- E. Excess parking. Excess parking shall be subject to the following requirement:
1. In addition to the landscape requirements of Title 18.46 (Landscape), one tree for every five spaces in excess of the maximum parking requirement shall be required and shall be placed within the entire parking area to provide for even canopy coverage or along the parkway to create a visual buffer between the parking area and the street.

(Ord. 16761 § 1 (part) Exh. B, 2007; Ord. 16653 § 2 (part), 2007)

(Ord. No. 17262, § 1, 1-5-2010; Ord. No. 17442, § 33, 10-26-2010; Ord. No. 17560, § 2, 5-17-2011)

20.14.060 - Shared parking.

- A. Submission of request. Whenever a shared parking arrangement is proposed to comply with the requirements of this chapter, the shared parking arrangement shall be subject to the prior approval of the city manager or designee and shall not require a special permit for off-site, off-street parking. To obtain approval of a shared parking arrangement, the owner or operator of the property on which the parking need is generated shall submit an application containing the following information to the city manager or designee. The fee for processing the application shall be as set by city council resolution.
 - 1. The maximum number of parking spaces, in accordance with this chapter, for the use(s) at the property generating the parking need, the number of parking spaces provided, and the hours of operation of the use(s).
 - 2. The maximum number of parking spaces, in accordance with this chapter, for the use(s) at the shared parking property, the number of parking spaces provided, and the hours of operation of the use(s).
- B. Conditions for approval. A shared parking arrangement shall be approved only when the arrangement meets all of the following conditions:
 - 1. The parking arrangement complies with this chapter;
 - 2. The owner or operator demonstrates that the use(s) of the property generating the parking need and the use(s) of the shared parking property are non-simultaneous or that the proposed shared parking spaces are in excess of the parking required for the use(s) of the shared parking property, or a combination of each option;
 - 3. The shared parking property is within three hundred feet of the property generating the parking need and the access is provided between the two properties;
 - 4. The parking area is compatible with the general development of the neighborhood and does not adversely affect the use of adjacent properties; and
 - 5. The required information has been satisfactorily submitted.
- C. Modification of arrangement. A modification of a shared parking arrangement shall be subject to the same standards for review and approval by the city manager or designee as the original arrangement.
- D. Termination of arrangement. The termination of a shared parking arrangement agreement may, after written notice to the owner or operator, result in the revocation of the certificate of occupancy for the building or facility of the property generating the parking need and which does not meet the minimum parking regulations, in addition to other penalties as described in this title.
- E. Sharing with city owned property. A shared parking arrangement in which the city is the owner of the shared parking property shall be permitted provided the owner complies with all of the requirements of this section, and additionally obtains a lease from the city for such use of city property.

(Ord. 16653 § 2 (part), 2007)

(Ord. No. 17442, § 34, 10-26-2010; Ord. No. 17560, § 3, 5-17-2011)

20.14.070 - Parking reductions.

The amount of off-street parking required for a specific use may be reduced below the minimum required in Section 20.14.050 C., if a special permit is approved by city council, as provided in this section:

- A. Existing development. Up to a one hundred percent reduction for a use involving an existing structure(s) located within an older neighborhood of the city that is proposed through the

rehabilitation, alteration or expansion of the existing structure(s). The applicant shall satisfactorily demonstrate compliance with all of the following conditions:

1. That the structure(s) is located in an older neighborhood of the city that has been legally subdivided and developed for at least thirty years;
 2. That the structure(s) does not extend into an area within the property which was previously used to accommodate off-street parking;
 3. That the off-street parking required for the proposed use of the structure(s) cannot be reasonably accommodated on the property due to the building coverage, whether due to the existing structure or due to a proposed expansion of the existing structure; and
 4. That no vacant areas exist within three hundred feet of the property where the proposed use is to be located that can be reasonably developed to accommodate the off-street parking requirements.
- B. New Development in Redevelopment Areas. Up to a one hundred percent reduction for a use involving the new construction of a structure(s) that is proposed as a redevelopment project located within a redevelopment area or transit oriented development corridor of the city. The applicant shall satisfactorily demonstrate compliance with all of the following conditions:
1. That the structure(s) is located within one of the following redevelopment areas: the downtown area (defined as the area between the Union Depot, Paisano Drive, St. Vrain Street, Olive Street, St. Vrain Street, the southern boundary of the Southern Pacific RR Reservation, Campbell Street and Interstate 10), the South El Paso area (defined as the area south of Paisano Drive, and lying between Santa Fe Street and Cotton Street), and any other redevelopment area or transit oriented development corridor as may be recommended by the city plan commission and approved by the city council;
 2. That the proposed building coverage on the lot is necessary for the proposed use, both in design and function necessitating the reduction; and
 3. That no vacant areas exist within three hundred feet of the property where the proposed use is to be located that can be reasonably developed to accommodate the off-street parking requirements.
- C. Parking Reduction Application Procedures. An applicant requesting consideration of a parking reduction shall comply with all of the following:
1. A special permit application for an off-street parking reduction shall not be construed as an automatic approval by the city and shall require the review and approval of the city council as set forth herein;
 2. The applicant shall submit adequate documentation to ensure compliance with the provisions of this section. City council shall make the final determination following a recommendation of the city plan commission and may impose conditions and safeguards necessary to protect the public welfare and to conserve and protect property;
 3. A completed special permit application for an off-street parking reduction shall be submitted to the planning official, and shall be accompanied with all of the following:
 - a. One copy of a completed application signed by the property owner(s), and
 - b. Eight copies of a detailed site plan of the subject property and all properties within three hundred feet adjoining the subject property, drawn to scale and showing the following:
 - i. Legal description,
 - ii. Property lines with dimensions,
 - iii. Location and arrangement of existing and proposed structures,

- iv. Location and arrangement of existing and proposed off-street parking areas,
- v. Location and arrangement of existing and proposed on-street parking areas within a three hundred radius from the perimeter of the lot of the facility requesting the reduction,
- vi. Calculation of the number of minimum off-street parking spaces for the existing and proposed use(s) of the property.
- vii. Off-street loading and unloading berths, where applicable,
- viii. Off-street parking spaces and driveways not subject to reduction, if applicable,
- ix. Streets abutting the property, including the location and dimensions of sidewalks, and
- x. Areas within the property where landscaping is provided, if any,
- c. One copy of a parking reduction impact study or of the letter from the city engineer waiving the parking reduction impact study, and
- d. One copy of a letter from the Director of Sun Metro indicating that the main entrance to the property is within one thousand feet of a mass transit system route,
- e. One copy of a proof of ownership document, and
- f. One copy of a current tax certificate sealed and having the signature of the city tax assessor/collector, for each parcel of property described in the application for an off-street parking reduction;
- 4. An off-street parking reduction granted pursuant to this section shall be particular to the use for which it was granted. A change in use that results in a change of parking requirements or hours of operation shall automatically terminate the off-street parking reduction;
- 5. Structure(s) for which an off-street parking reduction has been granted shall be in accordance with all other applicable codes;
- 6. An application for an off-street parking reduction shall demonstrate that all of the following circumstances apply:
 - a. That a reduction in the off-street parking requirement will not result in the unreasonable parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic on the streets, as demonstrated by findings of a parking reduction impact study where required by the city engineer. A parking reduction impact study, where required, shall be prepared in accordance with the standards required by the city engineer,
 - b. That a reduction in the off-street parking requirement will not create a safety hazard or other condition inconsistent with the objectives of this title,
 - c. That the property where the proposed use is to be located has sidewalks and the main entrance is within one thousand feet of a mass transit system route, as determined by the director of Sun Metro, and
 - d. That off-street parking not subject to a reduction shall comply with all other city ordinances governing off-street parking, including accessibility for the disabled.

D. Administrative parking reductions.

- 1. The zoning administrator may approve up to a ten percent parking reduction below the minimum required for a use involving an existing building(s) or structure(s) for applicants meeting the requirements specified in this section. The zoning administrator must be satisfied that the approval of a reduction will substantially serve the public convenience and welfare and will not substantially injure the neighboring property.

2. An applicant requesting a reduction under this section must submit a written application and shall satisfactorily demonstrate compliance with all of the following conditions:
 - a. That the required minimum number of off-street parking spaces cannot be reasonably accommodated on the property involved; and
 - b. That the request for the reduction is due to a change in use; and,
 - c. That the reduction of the required minimum parking spaces is for an existing building(s) or structure(s); and
 - d. That the reduction of the required minimum parking spaces is not for a new structure(s) or building(s) or due to the expansion of an existing structure(s) or building(s); and
 - e. That the applicant provides letters from the abutting property owners stating that the abutting property owners do not object to the parking reduction;
3. As part of the review process, the traffic engineer shall review the request to determine the impact on the surrounding properties and shall recommend approval or denial of the request. If the city traffic engineer recommends denial, the applicant shall be provided with the reasons for denial.
4. Upon a recommendation for approval from the city traffic engineer, the zoning administrator shall determine if all other provisions of this section have been satisfied and approve or deny the request for a parking reduction. If necessary to reduce the impact to neighboring property, the zoning administrator may impose additional requirements, such as landscaping or screening, as a condition of approval.
5. If the zoning administrator denies the request, the property owner may appeal the decision to the zoning board of adjustment.

(Ord. 16653 § 2 (part), 2007)

(Ord. No. 17261, § 1, 1-5-2010; Ord. No. 17442, § 35, 10-26-2010; Ord. No. 17560, §§ 4—9, 5-17-2011)

Chapter 20, Appendix C

Appendix C - TABLE OF PARKING REQUIREMENTS AND STANDARDS

PARKING TABLE	Round Examples: A 200 SF building with a parking requirement of 1/500 SF GFA will require $200/500 = 0.4$ or no parking. A 250 SF building with a parking requirement of 1/500 SF GFA will require $250/500 = 0.5$ or 1 parking space. A 24,400 SF building with a parking requirement of 1/500 SF GFA will require $24,400/500 = 48.8$ or 49 parking space.

NOTE 1: TO BE DETERMINED BY THE ZONING ADMINISTRATOR

NOTE 2: FOR SPECIFIC REQUIREMENTS BASED ON USE/ZONE CRITERIA FOR SECTION 20.14.080:

A. Office, Educational or Institutional less than or equal to 5000 SF building:

Gravel/screenings surfaced parking areas may be incorporated for the required parking reserved for use by employees and staff of in-store retail or Professional offices and for required parking where on-site ponding (see Section 20.14.080.C.4) or permanent desilting basins are provided. In no case shall gravel/screening parking exceed 50% of the total required parking.

The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the city manager or designee; and signage shall be installed indicating "Parking For Employees, Staff, and/or Overflow Parking Only".

B. Commercial/Manufacturing/Warehousing/Storage/Construction Yards/and High Traffic Uses:

Gravel/screenings surfaces may be incorporated for employee parking, for the storage users of truck trailers, storage containers, equipment, supplies, materials, motor vehicles or recreational vehicles which are part of the business function of the facility or site; including transport drop-offs and stock-in-trade.

All required parking for visitors, customers, employees, or patrons shall be hard surfaced.

The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the city manager or designee; and signage shall be installed indicating "Overflow Parking Only" or as appropriate.

All access drives to required parking shall be hard surfaced.

All Loading Docks and all other loading areas shall be hard surfaced.

C. Recreation, Amusement, and Entertainment:

For outdoor facilities, gravel/screenings surfaces may be incorporated for required parking in accordance with the attached table (Section 20.14.080.C). For indoor facilities, gravel surface parking areas may be incorporated for required parking where on-site ponding or permanent desilting basins are provided.

Gravel/screenings surfaces may be incorporated for the storage of truck trailers, storage containers, equipment, supplies, materials, recreational vehicles that are part of the function of the facility.

The perimeter of any gravel or screenings parking and drives areas shall be delineated by edging, curbing, abutting hard surface or other method as approved by the city manager or designee.

All access drives to required hard surfaced parking shall be hard surfaced.

D. Temporary Uses:

Gravel/screenings surfaces may be incorporated for all required parking subject to review, approval, and conditions by the city manager or designee.

Temporary uses with no parking requirements (i.e. construction areas, etc.) are exempt from parking surface requirements.

The perimeter of any gravel or screenings parking and drive areas shall be delineated by edging, curbing, or abutting hard surface or other method as approved by the city manager or designee.

E. Utility, Miscellaneous and Governmental Facilities:

Gravel/screenings surfaces may be incorporated for required and/or excess parking subject to review, approval, and conditions by the city manager or designee.

Temporary uses with no parking requirements (construction areas, etc) are exempt from parking surface requirements.

Any gravel or screenings parking areas shall be delineated by edging, curbing, or abutting hard surface or other method as approved by the city manager or designee.

F. Agricultural and related uses:

Gravel/screenings surfaces may be incorporated for all required parking including truck trailers, storage containers, equipment, supplies, materials, recreational vehicles which is part of the business function of the facility as well as personal vehicles of the living quarters on the premises.

G. Residential:

Gravel/screening surfaces may be incorporated for:

1. Required parking located at a distance no less than 20 feet from the front property line.

2. For required parking where on-site ponding (see Section 20.14.080.C.4) or permanent desilting basins are provided for the surface area of the gravel/screening parking area, and

The perimeter of any gravel or screenings parking areas shall be delineated by edging, curbing, abutting hard surfaces or other method as approved by the city manager or designee.

H. Non-Allowed Uses and Restrictions:

Gravel/screenings surfaces shall not be incorporated for either required or excess parking for motor vehicle sales except as allowed in other sections of this ordinance, for repair or dismantling uses, for storage of used drive train components other than tires, wheels or drive shafts, or for fueling or lubricating bays.

Gravel/screenings surfaces shall not be incorporated for required parking for hospital or medical treatment uses with buildings greater than or equal to five thousand square feet (5000 SF).

Gravel/screenings surfaces may be not be incorporated for required parking in excess of ninety-nine (99) spaces.

No authorizations herein shall supersede state or federal requirements, restrictions, rules, or regulations.

No parking is allowed on top of landscaping or areas not specifically designated for parking.

Note 3: When the minimum required automobile parking exceeds 60 spaces, 5% of the number required over 60 shall be added as required bicycle parking. This calculation shall be rounded up to the next whole number. The minimum number of bicycle spaces required regardless of the calculation shall be 3 and the maximum number of bicycle spaces required regardless of the calculation shall be 40.
