APPLICATION DESCRIPTION

The applicant is requesting to release all conditions imposed on the property by special contract, dated October 23, 1956, (see Attachment #4). The conditions imposed by the rezoning special contract are either current code requirements, are no longer applicable, or have been satisfied. The proposed use shall comply with the all El Paso City Code requirement prior to the issuance of a certificate of occupancy.

Planning and Inspections Department – Planning Division Recommendation

The Planning Division recommends **approval** of the condition release request as the conditions are either current code requirements, are no longer necessary or have been satisfied.

Applicant is required to address the following issues noted during review:

- Encroachment into ROW shall require removal or approval of special privilege by the City. Application is currently in process.
- ~~Legally non-conforming setbacks must be registered with Planning & Inspections.~~

Plan El Paso-Future Land Use Map Designation

All applications for a condition release shall demonstrate compliance with the following criteria:

G-7 Industrial and/or Railyards: This sector applies to industrial parks, large free-standing industrial uses, refineries, non-military airfields, trucking terminals, and mines, all on large tracts in areas dominated by vehicles. This sector is essential to El Paso's economy; however, when an industrial use becomes obsolete, there can be potential for mixed-use redevelopment of the site. This sector also includes the existing rail yards which could be redeveloped as mixed-use communities if the rail yards were moved out of town.

The purpose of the M-1(LightManufacturing) is to provide locations for light-intensity industries involving manufacturing, assembling, distribution and warehousing. It is intended that the districts will serve the entire city and will permit supporting commercial uses. The regulations of the districts are intended to preserve a light industrial nature particularly with regard to noise, smoke, odors, dust, vibrations and other noxious conditions.

Planning Division - Transportation

TIA is not required.

Note:

All existing and/or proposed paths of travel (accessible sidewalks, wheelchair access curb ramps and driveways) located within public rights-of-way shall follow the City of El Paso Design Standards for Construction and be ADA/TAS compliant.
