Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on March 28, 2016. Planning has received one phone call in opposition to the condition release request.

CASE HISTORY

Ordinance 8993, approved by City Council on April 14, 1987 rezoned the property from R-F (Ranch-Farm) to A-2 (Apartments) and C-4 (Commercial) and imposed conditions through Special Contract No. 73246 (Attachment #5) which reads as follows:

- 1. Any apartments constructed on Parcel 2 shall be limited to one story in height.*
- 2. Within ninety (90) days of approval of the zoning change, a subdivision plat must be filed of record.*
- 3. The property owners must dedicate thirty (30) feet of right-of-way for widening of Socorro Road, upon the passage of the ordinance by City Council.*
- 4. The property owner must provide a fifteen (15) foot wide landscaped area across the entire front of the property adjacent to Socorro Road, within ninety (90) days of approval of the rezoning request by the Mayor and City Council.*

APPLICATION DESCRIPTION

The applicant is requesting to release all conditions imposed on the subject property by special contract, dated April 14, 1987, (see Attachment #5). The conditions imposed by the special contract are limiting the development potential of the property, current code requirements, or have already been satisfied. This case is related to rezoning application (PZRZ16-00004).

Planning and Inspections Department – Planning Division Recommendation

The Planning Division recommends **approval** of releasing the special contract conditions as the conditions imposed by the special contract are limiting the development potential of the property, current code requirements, or have already been satisfied.

Plan El Paso-Future Land Use Map Designation

All applications for rezoning shall demonstrate compliance with the following criteria:

G-3 – Post War: This sector applies to transitional neighborhoods typically developed from the 1950s through the 1980s. Streets were laid out with curvilinear patterns without alleys and shopping centers are located at major intersections behind large parking lots. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.

The purpose of the S-D (Special Development) district is to provide mixed-use projects, integrated in design, in certain older residential areas where there is a desire to permit a variety of nonresidential uses while maintaining the established residential appearance and landscaping of the area. Designed to ensure compatibility with existing uses in the district; to permit the production, exhibit or sale of goods and the providing of services to the public in such older residential areas; to protect the traffic capacity of streets serving such older residential areas; to encourage flexibility by prescribing general performance standards for such older residential areas; and to protect the environment of adjacent areas. Older areas of the city shall be deemed those areas where development has existed for at least twenty-five years.

General:

7. The Owner shall minimize changes in grade above or near the vicinity of the existing 20-foot PSB easement.
8. No building, reservoir, structure or other improvement, other than asphaltic paving (HMAC), shall be constructed or maintained on the above referenced El Paso Water Utilities - Public Service Board Easement(s) (EPWU-PSB) without the written consent of EPWU-PSB. Building setback lines are required abutting all easements (5-foot minimum).
9. Socorro Road is a TXDOT right-of-way. The installation of water/sewer mains within the right-of-way requires a utility installation permit from TXDOT. Service to the subject property is contingent upon TXDOT issuing the permit.
10. EPWU-PSB requires a new service application to provide additional services. New service applications should be made 6-8 weeks in advance of construction to ensure water for construction work. The following items, if applicable, are required at the time of application: (1) hard copy of site plan with street names and addresses; (2) finalized set of improvement plans, including grading & drainage plans; (3) digital copy of site plan; (4) benchmark check; (5) construction schedule; and (6) a certificate of compliance. Service will be provided in accordance with the current El Paso Water Utilities - Public Service Board (EPWU-PSB) Rules and Regulations. The owner is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

El Paso Water Utilities-Stormwater Division

We have reviewed the subdivision described above and provide the following comments:

1. Provide an acceptable drainage plan in accordance with Section 19.01.050 of the current City Ordinance upon the submittal of construction plans.
2. At the improvement plan stage, provide protection to the subdivision from all offsite stormwater runoff that may have an adverse impact on any improvements.
3. Storm sewer cannot flow into Socorro Rd.; TXDOT roads are not designed to carry outside storm sewer flow.
4. The developer shall be responsible for the additional stormwater runoff generated by the proposed

development, and must ensure that the historic runoff volume, peak and duration are maintained.

5. Not required but recommended:

- Using principles of low impact development (such as recessed landscaping, rainwater harvesting, and porous pavements) to reduce the amount of developed stormwater runoff.

TXDOT

Requestor will need to submit grading and drainage plan and request access if he is planning to developed the property abutting Socorro Rd.

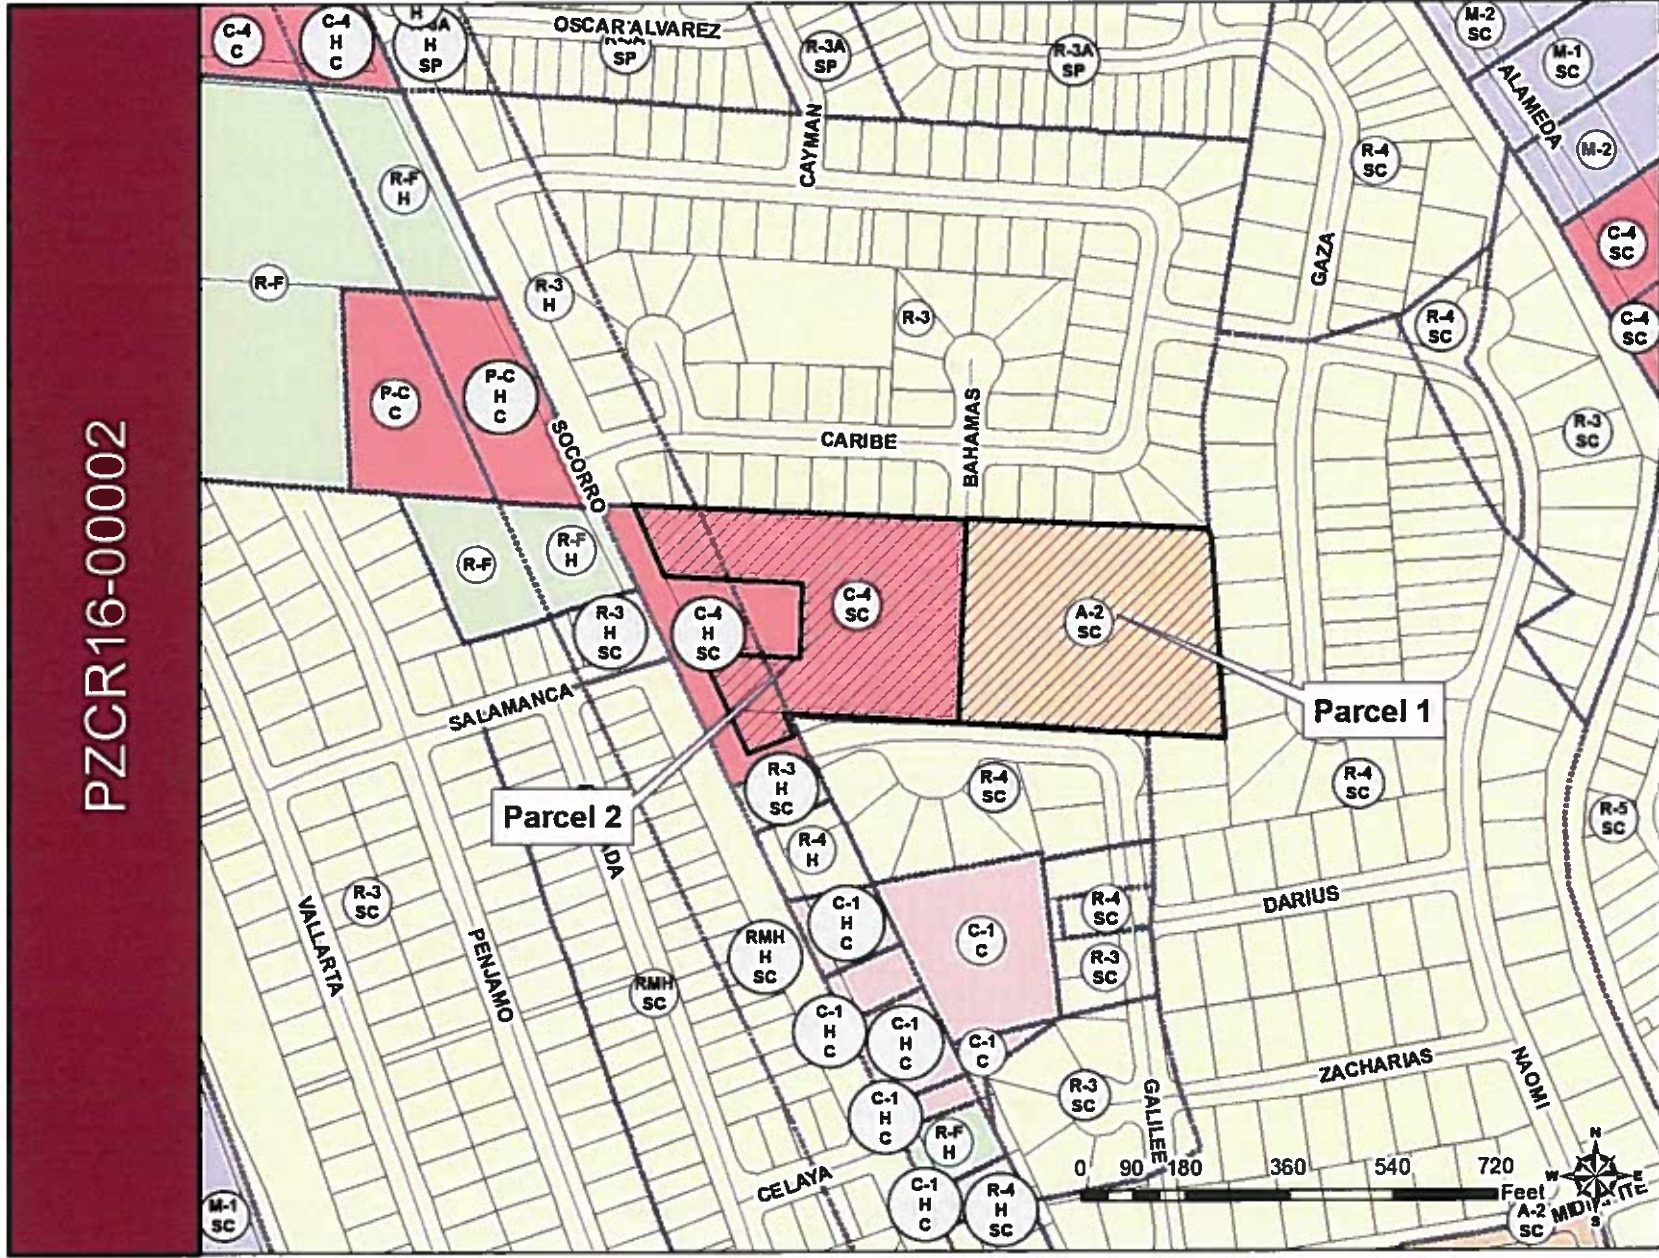

Sun Metro

Sun Metro does not oppose this request. Routes 60 and 84 provide services to and existing bus stop directly adjacent to property. Recommend coordination with Sun Metro Planning and Operations to minimize impacts to mass transit services. Recommend the construction of sidewalks to provide pedestrian access to mass transit options.

Ordinance 8993, approved by City Council on **April 14, 1987** rezoned the property from R-F (Ranch-Farm) to A-2 (Apartments) and C-4 (Commercial) and imposed conditions through a **Special Contract**. The special contract limited the height of apartments on the parcel that was rezoned to A-2 (Apartments), required that a subdivision plat be recorded, ROW dedication along Socorro, and a landscape buffer along Socorro.

- One story does not allow for more compact development
- Subdivision plat is currently required per Title 19.
- Required ROW on Socorro has been dedicated.
- Landscape buffer already required per Title 18.
