Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on April 29, 2015. There have been no communications in support or opposition to the proposed rezoning.

CASE HISTORY

Ordinance 8058, approved by City Council on May 29, 1984, rezoned the property from A-2 (Apartment) to PR-II (Planned Residential 2) and imposed conditions through a special contract. The special contract limited the height of the (then) proposed apartments, and also prohibits the connection of Majorca Court to Mesa Street (Attachment 5).

APPLICATION DESCRIPTION

The request is release On July 10, 1984, City Council rezoned the property from A-2 (Apartments) to P-R II (Planned Residential 2). A special contract attached to rezoning Ordinance No. 8058 imposed conditions as follows:

1. *The roof height of the proposed apartments will not be higher than the rock fences of the houses on Alto Rey; and*
2. *There will be no connection of Majorca Court to Mesa Street.*

Planning and Inspections Department – Planning Division Recommendation

The Planning Division recommends **approval** of releasing the special contract conditions as the conditions are no longer applicable to any proposed or expected development.

Plan El Paso-Future Land Use Map Designation

All applications for special permit shall demonstrate compliance with the following criteria:

G-4 – Suburban (Walkable): This sector applies to modern single use residential subdivisions and office parks, large schools and parks, and suburban shopping centers. This sector is generally stable but would benefit from strategic suburban retrofits to supplement the limited housing stock and add missing civic and commercial uses.

O-2 – Natural: Foothills, bosques, wetlands, critical arroyos, and other natural features owned by private or public entities but currently without protected status. Examples include the Castner Range and private tracts in and around the Franklin Mountains and Hueco Tanks State Parks. City regulations and policy decisions should help keep these lands in their natural state for drainage, natural habitat, and scenic protection. Public acquisition should be considered.

The purpose of the C-2 (Commercial) district is to provide goods or render services which are used in support of the community's trade and service establishments and serving multi-neighborhoods. Permit intensities designed to be compatible with each other and to provide for a wide range of types of commercial activity, including light automobile related uses.
