## MEMORANDUM

**DATE:** August 25, 2016

**TO:** The Honorable Mayor and City Council  
Tommy Gonzalez, City Manager

**FROM:** Andrew Salloum, Planner

**SUBJECT: PZCR16-00005**

---

The City Plan Commission (CPC) on August 25, 2016, voted 6-0 to recommend **APPROVAL** of the release of all conditions placed on the property by Ordinance No. 7367, November 3, 1981 and Ordinance No. 8457, dated September 10, 1985. The conditions imposed by the rezoning special contract are no longer necessary or have been satisfied on existing commercially zoned properties.

The CPC found that the condition release is in conformance with Plan El Paso. The CPC also determined that the condition release protects the best interest, health, safety and welfare of the public in general; that the proposed use is compatible with adjacent land uses; and the condition release will have no negative effects on the natural environment, social economic conditions, and property values in the vicinity and the city as a whole.

The Planning Division has not received any phone calls or letters in support or opposition to the request.

Notice of a Public Hearing was mailed to all property owners within 300 feet of the subject property on August 10, 2016. The Planning Division has not received any phone calls or letters in support or opposition to the condition release request.

### **CASE HISTORY**

On November 3, 1981, City Council approved the rezoning request for the subject property from R-3 (Residential) to C-4/sc (Commercial/special contract) and imposed by Ordinance No. 7367 (see Attachment 5) as follows:

*First party shall be required to construct the northern right of way of Artcraft Road from the Interstate Highway 10 frontage road to the eastern portion of the property and shall design and construct said improvements to the satisfaction of the State Department of Highways and Public Transportation of the City of El Paso before the City of El Paso will issue certificates of occupancy and compliance for any buildings or other structures to be built on Parcel 2.*

*The applicant is requesting to release the condition referenced in their entirety.*

On September 10, 1985, City Council approved the rezoning request for the subject property from R-3 (Residential) to C-4/sc (Commercial/special contract) and imposed by Ordinance No. 8457 (see Attachment 6) as follows:

- 1. Prior to the issuance of any building permits, a subdivision plat must be filed of record.*
- 2. Prior to the issuance of any building permits, a detailed site development plan must be approved by the Plan Commission and the City Council.*

*The applicant is also requesting to release the two conditions referenced in their entirety.*

### **APPLICATION DESCRIPTION**

The applicant is requesting to release all conditions imposed on the property by Ordinance No. 7367, November 3, 1981, (see Attachment 5) and Ordinance No. 8457, dated September 10, 1985 (see Attachment 6). The conditions imposed by the rezoning special contract are no longer necessary or have been satisfied on existing commercially zoned properties. The commercial development uses shall comply with the all El Paso City Code requirement prior to the issuance of a certificate of occupancy.

### **PLANNING DIVISION RECOMMENDATION**

The Planning Division recommends **approval** of the condition release request, as the conditions are no longer necessary or have been satisfied on existing commercially zoned properties.

### **Plan El Paso- Future Land Use Map Designation**

All applications for a condition release review shall demonstrate compliance with the following criteria:

G-7 Industrial and/or Railyards: This sector applies to industrial parks, large free-standing industrial uses, refineries, non-military airfields, trucking terminals, and mines, all on large tracts in areas dominated by vehicles. This sector is essential to El Paso's economy; however, when an industrial use becomes obsolete, there can be potential for mixed-use redevelopment of the site. This sector also includes the existing rail yards which could be redeveloped as mixed-use communities if the rail yards were moved out of town.

The purpose of the C-4 (Commercial) district is to provide for locations for the most intensive commercial uses intended to serve the entire city. It is intended that the district regulations permit heavy commercial uses characterized by automotive and light warehousing. The regulations of the districts are intended to provide a transition from general business areas to industrial and manufacturing uses, and to accommodate major locations of commerce, service and employment activities. Within the central business district, more intensive commercial uses are allowed, the predominant of which are retail trade and service uses, providing less restrictive height and area regulations.

### **Plan El Paso - Goals & Policies**

Goal 2.2: The City of El Paso should change its growth pattern away from homogeneous land uses and return to a pattern of compact well-connected mixed-use neighborhoods.

Policy 2.2.5: The design of new neighborhoods and additions to existing neighborhoods should strive for a balance of housing, jobs, shopping, recreation, and civic uses to avoid unnecessary travel and reduce infrastructure and public services costs.

### **COMMENTS:**

#### **Planning Division - Transportation**

No objections to the conditions release.

Note:

All existing and/or proposed paths of travel (accessible sidewalks, wheelchair access curb ramps and  
PZCR16-00005

driveways) located within public rights-of-way shall follow the City of El Paso Design Standards for Construction and be ADA/TAS compliant.

**Planning and Inspections Department – Building and Development Permitting**

No objections to proposed condition release.

**Planning and Inspections Department - Land Development**

No objections to proposed condition release.

Approval of the site plan by CPC constitutes a determination that the applicant is in compliance with the minimum provisions. Applicant is responsible for the adequacy of such plans, insuring that stormwater is in compliance with ordinances, codes, DSC, and DDM. Failure to comply may require the applicant to seek re-approval of the site plans from CPC.

**TXDOT**

TxDOT had coordinated with the developer and the City of El Paso to get the access and drainage plan approved. TxDOT has already issue the approval for both items.

**Street and Maintenance Department**

No objections to conditions release.

**Fire Department**

Recommended approval.

**Sun Metro**

Sun Metro does not oppose this request.

**El Paso Water Utilities**

1. EPWater does not object to this request

The owner should, for his own protection and at his own expense, install at the discharge side of each water meter a pressure regulator, strainer and relief valve, to be set for pressure as desired by the customer. The Owner shall be responsible for the operation and maintenance of the above-described water pressure regulating device.

The El Paso Water – Public Service Board (EPWATER-PSB) requires a complete set of improvement plans, and grading plans for review and approval prior to any work pertaining to the portion of the Property where the above-described water and sanitary sewer mains are located. This is required in order to ascertain that the proposed improvements and/or grading will not adversely affect the described existing mains.
12. All easements dedicated for public water and/or sanitary sewer facilities are to comply with EPWATER-PSB Easement Policy.
13. EPWATER-PSB requires access to the existing sanitary sewer mains within the easements 24 hours a day, seven (7) days a week.

The following items are required at the time of application: (1) hard copy of subdivision plat; (2) finalized set of street improvement plans, including storm sewer; (3) digital copy of subdivision plat; (4) benchmark check; and (5) construction schedule.
