TASER International's ADVANCED TASER M26 and X26 are the most extensively studied less lethal weapons on the market today. TASER International is the only weapons company in the world with both a scientific and medical advisory board comprised of world-class experts who provide critical insights to help the company design and test the safest devices possible.

These are some of the unique features the ADVANCED TASERS M26 and X26 have that are not found with other Electronic Control Devices:

The ADVANCED TASER M26 and X26 are the only less-lethal ECD weapons systems that can stop an aggressive, focused, combat trained attacker.

The X26 uses proprietary Shaped Pulse™ EMD Technology with high performance, highly efficient, incapacitation effect that's 5% greater than the ADVANCED TASER M26, and is 60% smaller, 60% lighter, and consumes 1/5th the power of the M26.
